Re: Submission of 2008 Consolidated Plan Annual Performance Report

Dear Ms. Lawson:

Enclosed are five copies of Cincinnati's 2008 CAPER submission. In this, the fourth year of our five year Consolidated Plan, the City of Cincinnati is continuing to use the CPMP Tool in developing and managing its programs. In addition to the CPMP Tool CAPER report, we are including all of the IDIS reports referenced in the current HUD CAPER Review Checklist (C04PR26). We are providing five copies of each of these IDIS reports.

To date the City has received one request to review the CAPER during the comment period. The request is included in the document but no comments have been received.

For questions related to the CAPER, please contact Oren Henry at 513-352-6264 or Susan Pratt at 513-352-6281.

Sincerely,

Milton Dohoney, Jr.  
City Manager

2008 Fourth Program Year CAPER

# Fourth Program Year CAPER

The CPMP Fourth Consolidated Annual Performance and Evaluation Report (FY 2008) includes Narrative Responses to CAPER questions that CDBG, HOME, HOPWA, and ESG grantees must respond to each year in order to be compliant with the Consolidated Planning Regulations. The Executive Summary narratives are optional.

The grantee must submit an updated Financial Summary Report (PR26).

## GENERAL

### Executive Summary

This module is optional but encouraged. If you choose to complete it, provide a brief overview that includes major initiatives and highlights that were proposed and executed throughout the fourth year.

Program Year 4 CAPER Executive Summary response:

In this, the fourth year of our five year Consolidated Plan, the City of Cincinnati is using the CPMP Tool for the second year in developing and managing its programs. In addition to the CPMP Tool CAPER report, we are including all of the IDIS reports referenced in the current HUD CAPER Review Checklist (C04PR26). For 2008 the City made progress in a number of areas to strengthen our neighborhoods in response to the international economic problems, and in responding to concerns from HUD. As most of America is experiencing turmoil in its housing markets and the general economy as well due to the aftermath of predatory lending, the City worked to provide assistance and relief to neighborhoods, often targeting specific impacted areas. Fair housing and activities to work with tenants and landlords continued their essential mission. Public service activities to improve counseling and financial assistance for families facing mortgage foreclosure were created or increased, as was public safety funding for demolition and barricading vacant and abandoned properties. While demand for downpayment assistance declined due to the economic downturn, there were still a fair number of families seeking funding to purchase their first home. From the inception of the program to date the City has not had any American Dream Downpayment Assistance program participants experience foreclosure. This is attributed to requiring extensive homebuyer counseling, thoroughly inspecting units to be purchased, and allowing only conventional fixed rate financing for the mortgage. Tenant based rental assistance was also provided for the first time beginning in 2008. The City is providing this assistance to meet the needs of families seeking affordable rental housing and is contracting with Hamilton County to administer the program. Revitalization continued in various neighborhood business districts improving streetscapes and infrastructure, and in addition technical assistance was provided to small businesses. Youth employment was maintained at the level of funding from the previous year. Assistance was provided to those seeking shelter including persons with AIDS.

The City has completed repaying \$3.95 million of HOME Investment Partnerships funds back to the HOME program account from City funds for the former Huntington Meadows housing project. The project did not meet HOME affordability standards for

the required five year period. The repaid funds will be used for new HOME eligible projects within the next two years.

The HUD Inspector General conducted an 18 month audit, of the HOME Investment Partnerships program operated by the City, that concluded in September of 2008. The City has been responding to the issues and findings raised in that monitoring. As a result, the City is revising or creating appropriate procedures to address the various issues brought fourth by the Inspector General. In some cases training is being sought to improve staff performance and to streamline and expedite reporting. These actions are resulting in increased reporting of completion of production of housing units and services provided to people.

The past few years has seen a significant decline in Consolidated Plan resources. It appears new activities like the Neighborhood Stabilization Program (NSP), increases to the Emergency Shelter Grant program, and boosts in Community Development Block Grant funding will begin to address the serious loss of federal resources. With the anticipated improvements in staff performance and the additional funding, it is believed progress will continue to be made toward meeting the needs of the community. Work has begun in 2009 to write the five year Consolidated Plan to guide the HUD assisted programs from 2010 through 2014. Additional information on specific programs and goals is provided in the attached "Project Report Detail" or the "2008 Consolidated Plan Action Plan Accomplishments Detail."

## **General Questions**

1. Assessment of the one-year goals and objectives:
  - a. Describe the accomplishments in attaining the goals and objectives for the reporting period.
  - b. Provide a breakdown of the CPD formula grant funds spent on grant activities for each goal and objective.
  - c. If applicable, explain why progress was not made towards meeting the goals and objectives.
2. Describe the manner in which the recipient would change its program as a result of its experiences.
3. Affirmatively Furthering Fair Housing:
  - a. Provide a summary of impediments to fair housing choice.
  - b. Identify actions taken to overcome effects of impediments identified.
4. Describe Other Actions in Strategic Plan or Action Plan taken to address obstacles to meeting underserved needs.
5. Leveraging Resources
  - a. Identify progress in obtaining "other" public and private resources to address needs.
  - b. How Federal resources from HUD leveraged other public and private resources.
  - c. How matching requirements were satisfied.

Program Year 4 CAPER General Questions response:

1 Assessment of one-year goals and objectives:

a. The attached "Project Report Detail" or the "2008 Consolidated Plan Action Plan Accomplishments Detail" provides a description of the City of Cincinnati's accomplishments as they align with the goals and objectives for the 2005-2009 Consolidated Plan. The accomplishment detail includes descriptions for activities in 2008 as well as information on accomplishments in 2005 - 2007. Only projects which were completed in 2005, 2006, 2007, and 2008 are included. Additional accomplishments may have occurred and are sometimes noted in the project descriptions.

The City disbursed \$1,231,081 on Acquisition and Property Related activities in 2008. The largest was \$892,312 for Clearance and Demolition. Clearance activities continue to be requested by neighborhoods dealing with dilapidated and abandoned structures. The foreclosure crisis affecting the entire country has caused hundreds of vacant properties to add to existing abandoned buildings. During the past three years the City has maximized the funding spent on slum and blight to attempt to address abandoned and blighted structures. Acquisition accounted for \$194,112 of expenditures; Disposition for \$45,282; Relocation for \$92,654; and Cleanup of Contaminated Sites/Brownfields for \$6,722. The program limit of no more than 30% of funding to be used for slum and blight abatement and the annual decreases in grant amounts has been the limiting factors to the City meeting its needs in this area.

The City disbursed \$764,681 on Economic Development related activities in 2008. The largest was \$345,491 for Direct Technical Assistance and \$194,298 for Direct Technical Assistance to For-Profits. Rehabilitation of Publicly/Private Owned commercial/industrial property was \$200,082. Commercial/Industrial Building Acquisition, Construction, Rehab was \$24,693; and Other Improvements was \$118.

Housing had \$3,350,561 disbursed on six major activities in 2008. The largest was \$1,750,025 on Single-Unit Residential Rehabilitation followed by \$545,497 on Code Enforcement activities. Next was \$522,152 on Lead-Based Paint/Lead Hazard Test/Abatement; \$314,858 on Multi-Unit Residential Rehab; \$215,289 on Administration of Rehabilitation; and \$2,739 on Acquisition for Rehab. The City has had difficulty in meeting its goals for homeowner rehab and is reassessing its programs. Numerous data collection issues have prevented a number of projects from being reported as completed. Staff have received technical assistance from HUD that will allow all but the most difficult of situations to be closed by early 2009 and increasing numbers produced. Multi-unit projects for rehab were down due to economic conditions and difficulty obtaining credit. The Lead Hazard program is improving capacity and should be increasing results. Code enforcement continues to work to get owners to correct dangerous conditions in buildings.

Public Facilities and Improvements for 2008 totaled \$1,462,158 in eight different categories. Street Improvements led with projects totaling \$864,453 spent followed by \$119,090 for neighborhood Parking Facilities. The next project category was \$103,719 for Parks and Recreational Facilities; \$102,445 for Neighborhood Facilities; \$102,215 for Health Facilities; \$86,335 for Non-Residential Historic Preservation; \$43,600 for Senior Facilities; and \$40,300 for Homeless Facilities.

Programs providing Public Services totaled \$2,176,023 in 2008. The largest expenditures were \$843,060 for Youth Services and \$623,980 for Employment Training. Both activities are either exclusively for youth or focus on youth and young citizens with difficulty obtaining employment. Legal Services were funded at \$175,138 while \$187,894 was spent on the City's efforts to address Fair Housing issues; \$142,680 were provided for Subsistence Payments for mortgage assistance; Crime Awareness Prevention was funded at \$85,158; Tenant/Landlord Counseling was funded at \$64,676; Public Services in general were \$43,287; and \$10,149 was expended on Homebuyer Counseling. The 15% limit on funding spent on Public Services while at the same time experiencing declining funding on an annual basis has been the biggest factor with selecting what public services to fund. The foreclosure crisis has necessitated providing mortgage assistance but at the expense of other programs addressing serious needs in the community.

b. Resources Made Available in 2008:

c. The City has experienced lags in housing production due to a multitude of factors. The poor conditions in the housing market as a whole played a role in slow unit production in 2008. Additionally, the City underwent an 18 month audit by the HUD Inspector General on the HOME program. Most of the City's unit production is through the HOME program. To address the concerns highlighted in the Inspector General's audit the City focused considerable amounts of time on improving the current program and reporting standards in 2008. Housing production will likely improve in the future as program improvements are put in place and the focus can return to unit production.

In particular, most housing programs underperformed compared to the 2008 goals. However, there were a huge number of outstanding projects needing only minor administrative changes to be completed in the HUD reporting system. Those changes are now in place and housing units are moving toward completion. The 2009 Annual Report will show all these units.

2. Describe the manner in which the recipient would change its program as a result of its experiences.

There are a number of influences that are causing the City to change its program as a result of its experiences in 2008. The largest change is the continuing decrease in funding received from HUD in the CDBG and HOME programs. The annual decreases combined with inflation and rising costs have seriously hampered the ability of the City to meet its needs using these programs. Now the added issue of the effects of predatory lending, especially in Ohio, has caused a shifting of our declining resources to mitigate that problem. The emphasis on expenditure timeliness has been a driving force on program design along with greater accountability.

The first obvious change is the City is not able to operate as many programs or as comprehensively as in the past.

Second the City has had to target its resources into more distinct areas or neighborhood improvement districts. This helps create more visible results in those areas, but sometimes the neighborhoods not receiving much assistance feel neglected.

The City has increased funding to assist in preventing mortgage foreclosure. The problem of foreclosure appears to be far greater than the resources we have available. In addition, foreclosure assistance currently can come from only CDBG funds and must be counted as a public service. Combined with declining CDBG resources and a public service cap of 15% it is difficult to seriously address this problem. Should HOME program regulations allow foreclosure assistance or other HUD or federal assistance becomes available it would greatly help us in working on this particular problem.

Vacant and abandoned properties are a significant problem in cities across Ohio, costing taxpayers tens of millions of dollars a year in extra municipal services and lost tax revenue, according to a study of eight Ohio cities recently released by the Community Research Partners. This study is consistent with what the City of Cincinnati has discovered in this community including increases in abandoned properties as a result of foreclosures. The report found that those unused properties cost the eight cities studied a total of \$15 million in extra municipal services and \$49 million in lost property tax revenues - a total drain of more than \$64 million. The study concludes that local governments need additional tools to adequately track vacant and abandoned properties and to take steps to return them to productive use. Due to citizen complaint to improve public safety the CDBG budget has increased demolition and property code enforcement. The City intends to use a considerable amount of the recently awarded Neighborhood Stabilization Program (NSP) funding to deal with abandoned properties. Combined with declining CDBG resources and a cap on the percentage of CDBG funds that can be expended on slum and blight activities it is challenging to adequately address this problem. The City had to average its slum and blight expenditures over a three year period ending in 2008, in order to begin to make progress with abandoned properties and keep within the thirty percent cap on slum and blight.

Timeliness of expenditures has become one of the most important considerations in determining what programs are funded or what approach is taken. In previous years the City was often the first to commit funding to proposed projects, but with the need to be timely the City is now one of the

last entities to commit. Developers are required to have much more in place before moving forward including studies, private financing commitments, equity and other important pieces. These requirements assist in determining quality projects but have hampered the ability to get some needed but difficult to develop projects underway. The additional requirements placed on developers may cause some quality developers to avoid proposing projects or responding to our requests for proposals due to the increased level of risk. By the time developers get all the pieces in place to do a project it is not unusual for the City to not have CDBG resources available as they have been spent on other projects that better met the timeliness requirements.

Finally the City has repaid \$3.95 million in HOME funds that were part of the financing of the failed Huntington Meadows redevelopment due to not meeting the required retention period. We have instituted significant new requirements on housing financing using HOME funding. While the requirements will strengthen housing deals it will make some projects impractical. And as with all projects the additional requirements placed on developers may cause some quality developers to avoid HOME projects due to the level of risk. In addition the tightened credit requirements of lenders are causing developers to seek more assistance in developing projects, if they can obtain credit at all.

### 3. Affirmatively Furthering Fair Housing:

The city of Cincinnati and Hamilton County conducted an analysis of impediments to fair housing during the consolidated Planning Process in 2004. The study conducted by Steven Howe and Associates indicated the following impediments to Fair Housing:

- A Need to Plan Better
- A Need to Promote Self-Sufficiency
- A Need to Generate Public Support

Affordability is one of the major challenges to providing fair housing. By maintaining and increasing the supply of affordable housing, the City feels there will be greater opportunity for the community to become more diversified throughout every neighborhood. The City of Cincinnati seeks the support from the community and neighborhood organizations to ensure that all housing is safe, decent, affordable, and available to all.

Based on the impediments to fair housing identified in the last study, the City has taken steps to improve planning, increase self-sufficiency, and generate public support.

To improve the planning process, in 2008 the City of Cincinnati re-instituted the Department of Planning and Buildings as a stand-alone entity. The department has created new procedures to improve the planning process in the City. The improvements are intended to increase the production of broader and more complete neighborhood plans and involvement in the community. Increased neighborhood involvement and the establishment of thorough planning should increase the availability of affordable housing and greater opportunities for all. The formation of the new Department of

Planning and Buildings continues to receive strong public support and has improved planning and participation.

The City also continues to work with groups like the Affordable Housing Advocates (AHA). AHA is a diverse group of housing providers, advocates and consumers spanning the grassroots, faith based, development, and planning organizations dedicated to the goal of ensuring decent, accessible, affordable housing for all people in Southwest Ohio. AHA is focused on meeting the housing needs of very low, low, and moderate-income individuals and families. This group formed to share the expertise and information gathered by its members, who have decades of experience in the Greater Cincinnati community in the area of affordable housing, and to initiate and support plans of action that will further the creation, retention, and accessibility of affordable housing in the community.

AHA members are focused on better planning and support policies that encourage the following:

- Retention of affordable housing (one to one replacement)
- Establishing requirements for a number of affordable units in new developments
- Building code, fair housing, and tenant rights enforcement
- Conflict resolution (landlord/tenant and fair housing)
- Regional Planning
- Affordable housing development
- Homeowner education and assistance
- Establishment of housing trust fund
- Zoning to promote affordable housing
- Tax credits; Tax incentives for development, maintenance and retention
- Reductions in land, construction and development costs

Through improved city planning and increased cooperation and communication between neighborhood organizations, the availability and quality of affordable housing has increased in Cincinnati.

The City of Cincinnati provided funds to Housing Opportunities Made Equal (HOME) to promote equal housing opportunities for all home seekers regardless of race, sex, color, nationality, religion, handicap, or familial status. HOME's goal is to reduce unlawful discrimination in housing and increase integration throughout Cincinnati's neighborhoods. The program does complaint intake, investigation, counseling, enforcement, and files legal complaints against persons, firms, or organizations suspected of discrimination in housing. HOME conducts research and monitors government sponsored or assisted housing programs in the region.

While the work is being done by the City and local not-for-profits to improve and further fair housing continues, the general market conditions have contributed to an environment that has increased the availability of affordable housing. Demand has decreased and housing prices have become more affordable in most neighborhoods. It is believed that increased affordability will improve diversity throughout the City of Cincinnati.

In December of 2008, the City began the planning process of updating its Analysis of Impediments to Fair Housing. It is anticipated that new goals and initiatives will be established in 2009 based on the outcome of the study and utilized in the 2010-2014 Consolidated Plan.

4. Describe Other Actions in Strategic Plan or Action Plan taken to address obstacles to meeting underserved needs.

The City has an increased emphasis on citizen safety and continued the Drug Elimination Program. In 2008 the City also increased its emphasis on blight elimination, all available slum and blight resources were allocated to the Barricade and Demolition Program. An additional \$143,000 in City Capital resources was also allocated to that program.

Additionally, the City has emphasized the cleanup of brownfield sites in recent years. The City's Strategic Program for Urban Redevelopment team (SPUR) has continued to experience long processing time when leveraging environment clean up funds from the state. The total development process becomes longer than usual or expected. In addition to long processing time, there is also a lack of appropriate federal funding sources for the expensive clean up of brownfield sites. Though the SPUR team has proven successful in acquiring funding, it is an expensive process, and the City continues to incur excessive costs in the hopes of receiving additional funding.

5. Leveraging Resources:

a. A total amount of \$23,719,781 in federal and local funds were committed (expended or encumbered) by the Department of Community Development in support of Consolidated Plan programs and related objectives. This investment leveraged approximately \$102,711,368 (or a 4:1 ratio) in private investment towards the programs.

b. Please refer to the "Resources Made Available" table on page 4 for specific information on how Federal resources from HUD leveraged other public and private resources.

c. Matching funds are required for the HOME and ESG programs. Match requirements for these grants were met as follows:

- **HOME Match:** The City of Cincinnati's HOME match liability is \$379,004 or 12.5% of the total 2008 project draws of \$3,032,028.30. The City of Cincinnati contributed at least \$793,803 in match funds. When the \$2,602,080 excess HOME match from 2008 is considered, a total of \$3,395,833 was available in 2008. Since only \$379,004 was needed in 2008, the amount of \$3,016,829 remains available to comply with 2009 HOME match requirements. The HOME Match Report is attached.

- **ESG Match:** Resources totaling \$3,754,781 were leveraged by ESG funded agencies in 2008. Resources totaling \$553,695 were certified by the shelter providers as funds matching the City's ESG grant as follows:

Bethany House Services, Inc.	\$66,065
Caracole, Inc.	\$19,290

Center for Respite Care		\$21,095
Interfaith Hospitality Network		\$30,420
Lighthouse Youth Services, Inc.		\$48,000
Lighthouse Youth Services, Inc. TH		\$15,865
Mercy Franciscan Social Ministries	Anna Louise Inn	\$49,060
Mercy Franciscan Social Ministries	OTR Temp. Hs.	\$30,695
Mercy Franciscan Social Ministries	Rapid Exit	\$0
Salvation Army		\$12,755
Shelterhouse Volunteer Group, Inc.		\$231,995
YWCA of Greater Cincinnati, Inc.		\$28,455
<b>TOTAL</b>		<b>\$553,695</b>

## Managing the Process

1. Describe actions taken during the last year to ensure compliance with program and comprehensive planning requirements.

Program Year 4 CAPER Managing the Process response:

1. The Office of Budget and Evaluations administers the City's Consolidated Plan grants. Administration includes the following functions:
  - Reviewing all proposals for funding at the budget phase for eligibility with grant program requirements.
  - Reviewing grant budgets in their entirety for compliance with program caps (CDBG) and program set asides (HOME CHDO requirements).
  - Reviewing all activities at the implementation phase for compliance with grant requirements (with Community Development and Law).
  - Monitoring activities to ensure commitment of funds in a timely manner, in particular the Emergency Shelter Grants and CHDO commitments for HOME funds.
  - Monitoring ongoing expenditures during the course of the program year to ensure program caps are not exceeded and that the CDBG program as a whole is in compliance with national benefit standards and timeliness standards.
  - Monitoring achievement of plan goals and objectives through periodic and annual reports and through the budget review process with a citizen advisory board.

## Citizen Participation

1. Provide a summary of citizen comments.
2. In addition, the performance report provided to citizens must identify the Federal funds made available for furthering the objectives of the Consolidated Plan. For each formula grant program, the grantee shall identify the total amount of funds available (including estimated program income), the total amount of funds committed during the reporting period, the total amount expended during the

reporting period, and the geographic distribution and location of expenditures. Jurisdictions are encouraged to include maps in describing the geographic distribution and location of investment (including areas of minority concentration). The geographic distribution and expenditure requirement may also be satisfied by specifying the census tracts where expenditures were concentrated.

\*Please note that Citizen Comments and Responses may be included as additional files within the CPMP Tool.

Program Year 4 CAPER Citizen Participation response:

1. Citizen Participation advertisement attached to this report demonstrates that a 15 day comment period was provided. The ad was published on March 16, 2009, with a comment period extending to March 31, 2009. No comments have been received as of the date of this report.
2. All documents the City made available to the public are included in the CAPER submission. Cincinnati compiles IDIS data into the CAPER narrative; therefore, using IDIS for a portion of the report is not necessary. However, the CAPER narrative lists IDIS reports available for public review as part of the CAPER submission. As a result, all program year information was made available to the public in both narrative and IDIS formats.

In addition, the City of Cincinnati's Department of Community Development produces a quarterly report that also provides information to citizens. This quarterly report outlines funding and outputs including CDBG and HOME funding and outputs.

## **Institutional Structure**

1. Describe actions taken during the last year to overcome gaps in institutional structures and enhance coordination.

Program Year 4 CAPER Institutional Structure response:

1. Actions taken to overcome gaps in institutional structures: The City continues to coordinate a Continuum of Care process with Hamilton County that brings together all homeless housing and service providers to coordinate and prioritize applications for the annual Continuum of Care Super NOFA process. The City as regional HOPWA grantee, continues to sponsor an annual review of needs and funding requests from the SMA regional providers of services to the HIV/AIDS population. In 2005 ESG funding was included in the scope of the Continuum of Care contract and now functions as a part of the Continuum process.

In 2007 the City began discussion with a private management company on the potential rehabilitation of a public housing community that currently has 893 units. In 2008 the City is evaluating a revised proposal from the management company and determining potential funding sources available.

## **Monitoring**

1. Describe how and the frequency with which you monitored your activities.

2. Describe the results of your monitoring including any improvements.
3. Self Evaluation
  - a. Describe the effect programs have in solving neighborhood and community problems.
  - b. Describe progress in meeting priority needs and specific objectives and help make community's vision of the future a reality.
  - c. Describe how you provided decent housing and a suitable living environment and expanded economic opportunity principally for low and moderate-income persons.
  - d. Indicate any activities falling behind schedule.
  - e. Describe how activities and strategies made an impact on identified needs.
  - f. Identify indicators that would best describe the results.
  - g. Identify barriers that had a negative impact on fulfilling the strategies and overall vision.
  - h. Identify whether major goals are on target and discuss reasons for those that are not on target.
  - i. Identify any adjustments or improvements to strategies and activities that might meet your needs more effectively.

Program Year 4 CAPER Monitoring response:

1. Method and Frequency of activity monitoring:

The Office of Budget and Evaluation provides general oversight to the CDBG and HOME grants. Departments administering grants monitor the programs within their department. Departments monitor activities by doing the following:

- Monthly invoices are reviewed to determine appropriateness of expenditures and compliance with HUD allowable expenses.
- Agencies are required to submit quarterly reports with demographic information and program outcomes.
- Contracting agencies are sent pre-site visit letters informing them that a site visit has been scheduled and the areas that will be reviewed are outlined.
- Annual on-site visits are conducted with each agency. Letters are sent to the agencies with visit outcomes.

ESG and HOPWA grants are monitored by The Cincinnati/Hamilton County Continuum of Care for the Homeless, Inc. (CoC), a contractor for the administration of these grants with the City of Cincinnati.

- Monthly ESG and HOPWA invoicing includes a review of dollars expended by provider agencies, matching spending to the approved budget allocations and to HUD allowable expenditures.
- ESG providers give to the City, via HMIS reports, a City demographic report that details persons served to IDIS data standards and provide proof of contracted service delivery.
- HOPWA providers provide an annual report to the City, with specific excerpts from the HOPWA APR reported according to activity funded.
- Annual on-site monitoring visits are conducted of each ESG and HOPWA program by CoC staff. Monitoring tools used are calibrated annually with the HUD field office monitoring tools to ensure consistency with HUD requirements.

2. Results of monitoring:

Monitoring revealed no findings in any of the CDBG, HOME, ESGs, and HOPWA programs. If monitoring reveals findings or concerns, all issues are quickly resolved with contracting agencies.

HOPWA providers are now using a new streamlined APR to report outcomes on – following the redesign of the federal HOPWA APR.

3. Self evaluation:

- a. Describe the effect programs have in solving neighborhood and community problems. A variety of programs are working to build better neighborhoods and alleviate community problems. In the 1870's Cincinnati was the fifth largest city in the U.S. but today has settled in as only the third largest city in Ohio. Today it finds itself with issues of public safety, declining neighborhood business districts, a growing low income population, abandoned buildings and brownfields, deteriorating housing stock, and one of the lowest rates of homeownership in the U.S. at thirty nine percent. As in most communities there are programs to challenge youth through employment experience and training. The Blueprint for Success program provides an avenue for high risk youth to learn marketable construction skills and earn a degree or equivalent. This program is fairly new and results are just being compiled but similar programs in other communities are experiencing strong results. Our innovative Strategic Program for Urban Redevelopment Team (SPUR) is composed of representatives of key City departments who are necessary in working together to seriously address brownfield acquisition, remediation, and redevelopment. This volunteer combination of employees has had great success in identifying potential brownfield sites with redevelopment potential, leveraging mitigation resources, completing all the tasks presented, and marketing the clean sites to private developers. Neighborhood business districts receive great attention and assistance is provided to meet the unique needs of those districts including parking, façade and utility improvements, and recruiting appropriate new businesses. Downpayment assistance to first time homebuyers has been increasing each year despite a continually declining American Dream Downpayment Initiative (ADDI) resource. Funding is available for the redevelopment of the many affordable rental projects in the City.
- b. There has been progress in meeting priority needs and specific objectives to meet the future vision of the City. As stated above there has been more assistance to first time homebuyers through the ADDI program, but the ongoing foreclosure crisis is negating much of that progress. There is an increased emphasis on managing abandoned and vacant properties. This is combined with additional housing units abandoned due to the increase in foreclosures. The success of the brownfield initiatives should translate into clean sites for developers to site new industrial and commercial businesses, which should increase jobs and the quality of the jobs. Public safety is of great importance and various programs like the Drug Elimination Program and Concentrated Code Enforcement support this effort. The Prison Reform Advocacy Program provided resources to adult ex-offenders reentering the workplace.
- c. Using the resources available the City is working to provide decent housing and a suitable living environment and expanded economic opportunity

- principally for low and moderate-income persons. The City has a variety of programs funded with the CDBG, HOME, ESG, and HOPWA funds. Within the guidelines of those programs the City has programs for the homeless and persons with AIDS. There are programs to provide both emergency repairs or emergency mortgage assistance to help families remain in their homes as well as comprehensive rehabilitation to rebuild neighborhoods. Assistance is also provided to renovate the many rental units in the City and a Lead Hazard Testing Program. Finally on housing, strong fair housing counseling and legal aid assistance, along with counseling to Section 8 tenants seeking better living environments is funded. The Small Business Loan Fund and Small Business Services & Technical Assistance programs are available to help small businesses grow, Financial & Credit Union Services, Neighborhood Capacity Building & Technical Assistance, as well as training programs that provide youth both employment and job skills.
- d. Due to reduced resources several activities are falling behind schedule. The SPUR Team has received reduced funding due primarily to the limit of funding for slum and blighting activities.
  - e. Several activities have made an impact on identified needs including the SPUR Team that is addressing the need for brownfield redevelopment. The American Dream Downpayment Initiative assistance program is helping more families become first time homebuyers.
  - f. Indicators that best describe results would be increases in the percentage of homeowners living in the City and increases in jobs. Unfortunately with the foreclosure crisis and recession it appears the efforts may only be reducing the overall losses in homeowners and jobs.
  - g. A barrier that have a negative impact on fulfilling the strategies and overall vision are the effects of predatory lending which has lead to increased foreclosures and vacant properties. Annual reductions in CDBG and HOME assistance combined with inflation have also creates a barrier to meeting strategies.
  - h. Major goals are not on target due to reduced federal resources. The most recent five year Consolidated Plan was completed in 2004. In that year the City received \$17,496,445 in CDBG funding and \$4,598,245 in HOME Investment program funds. In 2008 the City will only receive about 73% of that amount in CDBG funds and 83% of the HOME funds. With the annual decrease in funding it is impossible to achieve the goals set for the Consolidated Plan. Non federal funding from the City is not available.
  - i. There have been adjustments and improvements to strategies and activities to help meet the needs more effectively. When the Consolidated Plan was approved the City was developing Neighborhood Revitalization Strategy Areas. We have had some longer term success with that tool but due to public demand, we now are concentrating on three neighborhoods through a Neighborhood Enhancement Program each year with increased building code enforcement, housing assistance, anticrime initiatives, and general clean up.

## **Lead-based Paint**

1. Describe actions taken during the last year to evaluate and reduce lead-based paint hazards.

Program Year 4 CAPER Lead-based Paint response:

1. Cincinnati has an aging and deteriorated housing stock. The 2000 Census indicates the City of Cincinnati has over 147,991 occupied dwelling units of which 90,336 (61%) dwelling units are rental units and 57,655 (39 %) are owner occupied with 17,954 vacant units. Of Cincinnati's occupied dwelling units, 93% were built before 1979 and 52% of the total housing units were built before 1950. Only 7% of Cincinnati's housing stock is considered lead-free based on age of the dwelling. It is estimated that 20,000 owner-occupied dwellings have lead hazards. Approximately 33,000 housing units are considered a cost burden to their residents due to physical problems or over-crowding.

According to the Ohio Department of Health, 98% of the zip codes within Hamilton County are considered at-risk for childhood lead poisoning. All high-risk zip codes for Hamilton County are located within the City of Cincinnati jurisdiction. Consequently, lead-based paint hazard control activities are an integral and necessary part of the residential rehabilitation projects undertaken by the City of Cincinnati.

Various programs gave assistance through HOME, CDBG, and City Capital funds for lead hazard remediation. Qualified 10-unit multi-family structures received assistance through the Rental Rehab Program.

In 2008, the City of Cincinnati Department of Community Development completed lead risk assessments and generated lead specifications on 108 dwelling units within 18 structures. Final rehabilitation lead dust clearances were achieved in 132 units within 28 structures for projects assisted through the Department of Community Development housing programs.

The Housing Rehabilitation Loan Program (through the Home Ownership Center of Greater Cincinnati) provided support for low/moderate-income single-family owner occupied homes. The Home Ownership Center of Greater Cincinnati provides assistance for owner-occupied single and two family structures. Lead-based paint hazard reduction treatments were completed on 3 dwelling units in 2008.

The City of Cincinnati Department of Community Development is a 2008 recipient of a three-year \$3 million HUD Lead-Based Paint Reduction Demonstration Grant. A total of 92.8% of the requested funds will go directly to lead hazard control and relocation activities; 4.1% will go towards the administrative costs, and less than 1% will fund travel, HEPA vacuum cleaners for partner non-profit organizations, lead safe work practices training, and contract expenses. 240 units will be addressed and cleared as lead safe with an average lead hazard reduction cost of \$10,000 per unit. The focus will be income qualified owner-occupied single-family dwellings where a child under the age of six resides or frequents. Priority will be given to single-family owner-occupied units with lead abatement orders from the Cincinnati Health Department.

Aside from the remediation costs, relocation and legal expenses, the grant budget

also includes funds for training 150 economically challenged persons as lead safe renovators. The budget also allocates funds to purchases 10 HEPA vacuum cleaners for the seven non-profit community partners. The grant proposal will collaborate with the following community groups in order to combine renovation activities and assist with income eligibility, unit selection, and workflow to ensure weatherization and other rehab activities (such as roof, plumbing, or electric work) can occur with the lead hazard control work. The partners' involvement will also include outreach, community education, marketing, and housing evaluations and interventions. The proposed grant partners are the following non-profit organizations: Working In Neighborhoods, People Working Cooperatively, Over-the-Rhine Community Housing, Price Hill Will, Cincinnati Housing Partners, Evanston Exterior Home Improvement Program, and Cincinnati Northside Community Urban Redevelopment Corporation. Seventeen of the fifty-two neighborhoods in the City of Cincinnati are the focus of this proposal: Westend, Over-the-Rhine, Mt. Auburn, Fairview-Clifton Heights, Corryville, Walnut Hills, Evanston, Madisonville, Avondale, Northside, South Cumminsville, North Fairmount, South Fairmount, East Price Hill, Lower Price Hill, West Price Hill, and Carthage. Nine neighborhoods are also located within the City of Cincinnati's Empowerment Zone.

The HUD Lead-Based Paint Reduction Demonstration Grant that the City of Cincinnati Department of Community Development received is in addition to the three-year \$3 million HUD Lead-Based Paint Hazard Control grant the Cincinnati Health Department received in 2007. The Cincinnati Health Department will address lead hazards in at least 200 housing units, both owner-occupied and rental. The Cincinnati Health Department and the City of Cincinnati Department of Community Development will be working cooperatively to achieve the mutual goals.

The Department of Community Development is also the current recipient of U.S. Environmental Protection Agency Brownfield Job Training Grant. The grant objective is to recruit at least 80 individuals and train 60 individuals with at least 45 individuals procuring gainful employment in the environmental field as an entry-level environmental field technician. 22 participants graduated from the program during 2008, with an 80% successful employment rate.

One session consists of eight weeks of training including the following courses: 40-hour Asbestos Supervisor Training, 32-hour Brownfield Environmental Technology Training, 24-hour Brownfield Awareness, 40-hour Job Readiness/Career Development/Financial Management Training, 32-hour Lead Abatement Worker Training, 16-hour Confined Space, 32-hour Mold Remediation, 30-hour OSHA Construction Outreach Program, 40-hour Hazardous Waste Site Worker, 4-hour CPR Training, and 4-hour Health Safety Computer Skills, for a total of 294 training hours. The participants obtain Ohio licenses as an asbestos supervisor and lead abatement worker.

Monthly training opportunities for *Lead Safe Renovator* and *Essential Maintenance Practices* certificate training were provided at a nominal cost through the University of Cincinnati and the Cincinnati Health Department. The eight-hour courses were available to rehabilitation contractors, property owners, and property maintenance crews. The *Lead Safe Renovator* and *Essential Maintenance Practices* certificates allow lead hazard control activities to be performed where lead based-paint is known or presumed to be present in federally funded projects in residential units built before 1978. The University of Cincinnati College of Medicine is the 2008 recipient of a Lead Technical Studies Grant. The purpose of the grant is to evaluate the

effectiveness of various training methods and train 100 people for the next three years as lead safe renovators provided at no cost for the participant.

## HOUSING

### Housing Needs

\*Please also refer to the Housing Needs Table in the Needs.xls workbook.

1. Describe Actions taken during the last year to foster and maintain affordable housing.

Program Year 4 CAPER Housing Needs response:

1. Cincinnati has multifaceted approach to addressing the need for affordable housing that includes 13 programs funded through CDBG and HOME. Programs, such as the Strategic Housing Initiatives program fund new housing projects. The Homeowner Rehab Loan program, the Rental Rehabilitation program and the Housing Maintenance Services program provided funding for improving and maintaining the quality of existing affordable housing stock through major rehabilitations or minor repairs. The City also encourages homeownership through the American Dream Downpayment Assistance program. Finally, the City provides supportive services to both homeowners and renters through programs, such as the Emergency Mortgage Assistance Program and the Section 8 Tenant Counseling and Placement program. A list of accomplishments and detailed program descriptions are contained in the Project Report Detail, and also on pages 1 through 8 of the "2008 Consolidated Plan Action Plan Accomplishments Detail."

### Specific Housing Objectives

1. Evaluate progress in meeting specific objective of providing affordable housing, including the number of extremely low-income, low-income, and moderate-income renter and owner households comparing actual accomplishments with proposed goals during the reporting period.
2. Evaluate progress in providing affordable housing that meets the Section 215 definition of affordable housing for rental and owner households comparing actual accomplishments with proposed goals during the reporting period.
3. Describe efforts to address "worst-case" housing needs and housing needs of persons with disabilities.

Program Year 4 CAPER Specific Housing Objectives response:

1. This comprehensive approach to providing affordable housing employed by the City of Cincinnati has been reasonable successful. However, cuts in funding, the high cost lead abatement, current housing and credit market conditions, and other regional economic factors continue to make providing affordable housing challenging. Specific information on programs and related goals is found in the "Project Report Detail" or on pages 1 through 8 of the "2008 Consolidated Plan Action Plan Accomplishments Detail." In 2008 the City provided housing assistance through one

of its 13 programs to 6,223 housing units under area benefit and 1,102 households directly. CDBG funding is used for the minor repairs program, fair housing program, code enforcement, lead testing, and other supportive services programs primarily targeted at renters. The table below detail the populations served through the CDBG program based on income levels.

<b>Households Served through CDBG Funded Housing Activities</b>					
	<b>TOTAL</b>	<b>% of Median Income</b>			<b>Above 80%</b>
		<b>0-30%</b>	<b>31%-50%</b>	<b>51%-80%</b>	
TOTAL NUMBER	1,102	595	173	324	10
TOTAL PERCENTAGE	100%	54%	16%	29%	1%

The City uses HOME funding for the new housing unit production, downpayment assistance, major rehabilitation programs, and the new tenant based rental assistance program. The table below details the populations served through the HOME program based on income levels.

<b>HOME Housing Units Completions by Percent of Area Median Income</b>						
<b>Type</b>	<b>0-30%</b>	<b>31-50%</b>	<b>51-60%</b>	<b>61-80%</b>	<b>0-60%</b>	<b>0-80%</b>

Existing Homeowners	3	0	3	0	6	6
TOTAL Renters and TBRA	204	30	6	0	240	240
TOTAL Homebuyer and Homeowners	10	30	27	69	67	136
<b>Total</b>	<b>214</b>	<b>60</b>	<b>33</b>	<b>69</b>	<b>307</b>	<b>376</b>

2. All homeowner and renter households assisted are expected to meet the Section 215 requirements. Section 215 requirements are stated in funding agreements and contracts and monitored by the City's Department of Community Development and Planning.

3. Housing needs of those individuals and families who are homeless are served by the programs within the Cincinnati/Hamilton County Continuum of Care (CoC). The Emergency Shelter Grant supports emergency shelters and transitional housing for adults and youth, SHP funding supports services, transitional and permanent supportive housing, and Shelter Plus Care is a subsidy-based permanent supportive housing program. SHP permanent supportive housing and Shelter Plus Care both serve homeless individuals and families in which at least one adult is disabled. Generally though, Shelter Plus Care is intended to serve those with the most severe and long-term disabling conditions. HOPWA, also included in the CoC process, provides housing assistance locally to low income persons with HIV/AIDS in the form of short term rent, mortgage and utility assistance to prevent homelessness, as well as transitional facility-based housing assistance. The CoC continues to make the

increase of permanent supportive housing units a priority, as the lack thereof is one of the greatest gaps in housing homeless individuals and families. Specific project information can be found in the "Project Report Detail" or on pages 24 through 30 of the "2008 Consolidated Plan Action Plan Accomplishments Detail."

## **Public Housing Strategy**

1. Describe actions taken during the last year to improve public housing and resident initiatives.

Program Year 4 CAPER Public Housing Strategy response:

1. The Section 8 Tenant Counseling and Placement program was continued in 2008. This program provides placement and transportation services to Section 8 voucher holders to assist them in securing affordable housing in low poverty neighborhoods outside the City of Cincinnati. In addition, this program provides outreach to landlords. In 2008 this program moved 81 households from high or medium poverty areas to low poverty areas. This program received \$50,000 in funding, of which it drew down \$45,876.

## **Barriers to Affordable Housing**

1. Describe actions taken during the last year to eliminate barriers to affordable housing.

Program Year 4 CAPER Barriers to Affordable Housing response:

1. The specific actions taken to eliminate barriers to affordable housing were accomplished through the programs described in the "Project Report Detail" or on pages 1 through 8 of the "2008 Consolidated Plan Action Plan Accomplishments Detail." One particular barrier to maintaining an affordable housing stock in the City of Cincinnati is the continual need for maintenance of an aging housing stock. The Homeowner Rehab Loan and Lead Abatement program and the Rental Rehabilitation program address major rehabilitation needs. The Housing Maintenance Services program provides minor repairs to homeowners. This allows these low-income homeowners to maintain safe conditions in their current affordable housing.

## **HOME/ American Dream Down Payment Initiative (ADDI)**

1. Assessment of Relationship of HOME Funds to Goals and Objectives
  - a. Evaluate progress made toward meeting goals for providing affordable housing using HOME funds, including the number and types of households served.
2. HOME Match Report
  - a. Use HOME Match Report HUD-40107-A to report on match contributions for the period covered by the Consolidated Plan program year.
3. HOME MBE and WBE Report

- a. Use Part III of HUD Form 40107 to report contracts and subcontracts with Minority Business Enterprises (MBEs) and Women's Business Enterprises (WBEs).

4. Assessments

- a. Detail results of on-site inspections of rental housing.
- b. Describe the HOME jurisdiction's affirmative marketing actions.
- c. Describe outreach to minority and women owned businesses.

Program Year 4 CAPER HOME/ADDI response:

1. Assessment of Relationship of HOME Funds to Goals and Objections

a. Five programs utilized HOME funds in 2008, including the Homeowner Rehab Loan and Lead Abatement program, the Housing Development Round Renters and Rental Rehabilitation programs, Tenant Based Rental Assistance (TBRA), and the American Dream Downpayment Assistance program. Of these five programs there were 381 units reported completed in 2008. The 2008 completed projects benefited 376 households. This total was below the expected levels due to several factors. Administrative issues have delayed some completed HOME projects from being entered as completed in the IDIS reporting system. Those issues have been addressed but many units that were completed in 2008 and even earlier years will not show up as completed until the 2009 Annual Report. Economic conditions continue to have a negative effect on programs with reduced demand for rental rehab and much lower numbers of first time homebuyers applying for ADDI downpayment assistance. The Homeowner Rehab Loan program is being evaluated and no new activity is currently taking place. Further details on the HOME funded programs are in the "2008 Consolidated Plan Action Plan Projects Report Detail.

<b>HOME Housing Units Completions by Percent of Area Median Income</b>						
<b>Type</b>	<b>0-30%</b>	<b>31-50%</b>	<b>51-60%</b>	<b>61-80%</b>	<b>0-60%</b>	<b>0-80%</b>

2. HOME Match Report

- a. The HOME match report is included as an attachment to this report. Match of \$793,803 was contributed in 2008.

3. HOME MBE and WBE Report

- a. The HOME MBE and WBE report is included as an attachment to this report. In 2008, the City of Cincinnati awarded six sub contracts under the HOME program for a total funding amount of \$660,859. The six contracts were awarded to a Minority

Business for a total funding of \$660,859. The City of Cincinnati awarded four sub contracts under the HOME program for a total funding amount of \$668,967. The four contracts were awarded to a Women Business Enterprise for a total funding of \$668,967.

#### 4. Assessments

a. Upon completion of affordable rental housing developed with HOME funds the affordability period will begin once eligible tenants occupy all HOME-assisted units. The affordability period is based on the number of HOME-assisted units developed in the project and the total amount of HOME invested in each unit. This period will range between 5 to 20 years. There are two primary components that are monitored during the affordability.

The first component involves physical conditions and ongoing maintenance of the property. The City of Cincinnati has several licensed inspectors under contract to conduct physical inspections of affordable housing projects. On-site physical inspections occur at least once every three years for projects with less than 4 units, once every two years for projects with 5 to 25 units, and annually for projects with 26 or more units. The inspections consist of 15% to 100% of the units and are determined by randomly selecting a sampling of HOME units, common space, grounds, and building exteriors. In addition to ongoing physical inspections by the licensed inspectors, City staff conducts periodic visits to monitor property conditions. If concerns are identified during a visit, staff will typically schedule a time and date for the inspector to visit the property.

The second component that is monitored during the affordability period involves tenant income, tenant rents, and other applicable HOME program requirements. Tenant income and rents are monitored annually. Monitoring may consist of reviewing tenant income certifications during scheduled on-site file audits or by conducting a desk review.

In 2008, the City had 29 properties inspected, which included a combined total of 1491 units. Of the properties inspected, approximately 14 required at least one follow-up inspection to verify that repairs were satisfactorily completed. The conditions identified in the inspections have been corrected or are in the process of being corrected. Inspectors work very closely with owners to make sure health and safety standards are met and that the HOME-assisted units are properly maintained in accordance with local codes.

Tenant income, rent, and other HOME program requirements were reviewed on 25 properties. Based on these reviews, the City determined that most projects met the minimum requirements without any additional follow-up. In cases where concerns were identified, the City provided one-on-one technical assistance to provide guidance on certifying income, documenting eligibility, and educating tenants on the hazards of lead-based paint. Staff has spent considerable time implementing new systems in 2008 to improve the overall monitoring of HOME-assisted units and continues to adopt new procedures to further long-term affordability and program compliance.

b. Details of the City of Cincinnati's Affirmative Marketing procedures are described below.

Developers and Contract Agency's (DCA's) that receive funding through the City of Cincinnati for HUD assisted rental or homebuyer projects must adhere to the City's Affirmative Marketing Procedures. Affirmative marketing seeks to provide information and attract eligible persons to available housing without regard to race, color, national origin, sex, religion, familial status, or disability.

DCA's must analyze the local market to identify who is least likely to apply for housing in the area under development. Following the analysis, a strategy must be implemented to reach all eligible applicants through outreach and the media. Outreach resources may include community organizations, places of worship, employment centers, fair housing groups, housing counseling agencies, and social service providers. Types of media may consist of newspapers, magazines, web technology, radio, television, billboards, or other marketing methods.

DCA's conducting homebuyer activities must certify they have adopted the Affirmative Marketing Procedures into their program from the beginning of the project to the sale of the unit. It is recommended that a Realtor and the Multiple Listing Service (MLS) be used for all homebuyer activities. Projects with homes sold prior to entering into contract with the City must provide documentation that all Affirmative Marketing Procedures were followed. The documentation should include the list of persons that applied for the housing and the selection process used to select buyers.

DCA's conducting rental activities must certify they have adopted the Affirmative Marketing Procedures. The DCA must review the effectiveness of marketing efforts annually throughout the affordability period. Based on the review, marketing efforts should be modified to improve outreach each year.

All DCA's must keep and maintain a project file that documents marketing efforts to potential applicants. The file must include a description of how the least likely applicants were identified and what marketing efforts were used to reach them. The DCA's file must provide the date and location marketing information was distributed. The race and familial status of all applicants should also be documented in the file. In addition, copies of all newspaper advertisements, notices, mailings, and letters related to marketing should be included in the file.

The Affirmative Marketing Procedures Checklist includes the Affirmative Marketing requirements. The Checklist must be submitted by participating DCA's at the time of entering into the contract with the City. The City will then review the marketing plan for approval.

DCA's are contractually obligated to follow the Affirmative Marketing requirements. Failure to comply will result in a finding of non-compliance and possible forfeiture of funding. The City of Cincinnati will monitor DCA's to verify compliance with the Affirmative Marketing Procedures and evaluate program effectiveness annually.

c. MBE/WBE Participation in HOME Program: In 2008, six of the total contracts and sub-contracts awarded were to minority developers who availed themselves of the forgivable loan funds in the HOME funded Rental Rehabilitation Program. Anyone who meets the qualifications may apply for funding and there is no control on who may seek assistance. Since the ultimate goal of the program is to improve the rental housing markets for low-income families it is essential that the Program fund any project that fulfills those goals. A special effort is made to reach minority

entrepreneur owners through minority-owned media (newspapers, radio stations), and organizations. Similarly, efforts are made to engage minority and women owned architectural and inspections firms to work as consultants to the program.

## HOMELESS

### Homeless Needs

\*Please also refer to the Homeless Needs Table in the Needs.xls workbook.

1. Identify actions taken to address needs of homeless persons.
2. Identify actions to help homeless persons make the transition to permanent housing and independent living.
3. Identify new Federal resources obtained from Homeless SuperNOFA.

Program Year 4 CAPER Homeless Needs response:

1. Actions taken to address the needs of homeless persons: The City of Cincinnati, Ohio addresses the needs of homeless persons through the Cincinnati/Hamilton County Continuum of Care for the Homeless (CoC). The CoC covers two jurisdictions – the City of Cincinnati and Hamilton County, Ohio. These jurisdictions have worked together on developing and implementing a combined strategy since 1996. The goals and objectives are identical in each of the jurisdictions' Consolidated Plans that have been approved by the City Council and Mayor of the City of Cincinnati and the Hamilton County Commissioners.

The lead entity is the Cincinnati/Hamilton County Continuum of Care for the Homeless, Inc. (CoC, Inc.) who is responsible for all CoC process staffing. Staff responsibilities include: facilitation of the year-round planning, coordination and program implementation processes for homeless housing and services within the jurisdiction and facilitation of the annual grant application process to HUD and other collaborative grant initiatives. The lead facilitator of the CoC's process is Kevin Finn, Executive Director of the CoC, Inc. The City of Cincinnati assumes primary responsibility for funding/contracting with the CoC, Inc. to provide planning, implementation and oversight.

The CoC process is a *single, coordinated and inclusive process* for planning and management of the local (City of Cincinnati and Hamilton County) Continuum, including planning for persons on the streets, within emergency shelters, in transitional housing facilities and housed within permanent supportive housing sites.

2. The coordinating body – the Homeless Clearinghouse is composed of representatives of each of the following bodies: The City of Cincinnati, Department of Community Development and Planning; Hamilton County, Community Development Department; the Greater Cincinnati Coalition for the Homeless; and a representative from each of the Working Groups of the CoC. The Clearinghouse meets quarterly for scheduled meetings, as well as on an as-needed basis. The Clearinghouse provides year-round coordination, planning, program development, funding, program/housing support, and technical assistance. The purpose of the Clearinghouse is to:

1. Plan and coordinate community influence on systemic decisions affecting the homeless.
2. Uphold the elements of the Consolidated Plan that affect homelessness.
3. Identify and support the utilization of all sources of funds and other resources used to improve the quality of life for homeless persons and/or to end homelessness.

The Working Groups of the CoC are active, inclusive entities designed to provide direct input in planning, implement planning initiatives, coordinate day-to-day activities of providers, reduce/eliminate duplicative efforts, actively promote best-practice methodologies, and implement access improvements for mainstream resources. These working groups provide the framework to ensure ongoing, active participation of the entire community including: veterans services, organizations representing persons with special needs or disabilities, faith-based and community-based organizations, state and local governmental agencies, PHA's, housing developers law enforcement, hospital and medical services, funders, local businesses and homeless/formerly homeless persons.

Working Group	Focus Area	Prime Activities
Family Shelter Partnership Program (FSPP)	Families in shelter	Coordinating quality case management Coordinating mainstream resources (TANF, FS, CHIP, Medicaid, Child Care, Child Protection)
Homeless Individuals Task Force (HIT Force)	Homeless single individuals & chronically homeless	Coordinating resources for single individuals Improving access to mainstream services (MH/SA) Implementing a Chronic Homeless Initiative (HIP)
Homeless Outreach Group (HOG)	Street homeless & chronically homeless	Coordinating outreach efforts Increasing access to housing/services directly from the streets
HMIS Advisory Committee	HMIS quality and Integrity	Implementing HMIS Policy/Procedure Development & Oversight
Permanent Housing Group	SHP permanent housing for the disabled	Promoting best practice efforts in housing and case managing homeless persons with special needs (MH, SA, HIV/AIDS, dual disabilities, etc.)
Shelter Plus Care Work Group	Shelter Plus Care housing programs	Increasing community access to Shelter Plus Care housing
Transitional Housing Group	SHP transitional housing programs	Dealing with issues of access and capacity in the area of transitional housing
Benefit Access Group	Access to public benefits	Facilitating access to and streamlining application processes for mainstream benefits

To further ensure there are not duplicate efforts in coordination and planning for homeless housing and services the City of Cincinnati contracted with The Partnership

Center Limited (PCL) beginning in 2004 to incorporate funding/administration of ESG and HOPWA into the CoC and its processes. In 2008, the city began contracting with the newly incorporated Cincinnati/Hamilton County Continuum of Care for the Homeless, Inc. for these functions.

In 2004, PCL convened the process for the Homeless/Special Needs Section of the Consolidated Plans of both the City and County through the CoC process. Thus ensuring one consistent and consolidated plan for all components of the CoC (prevention, outreach, intake, and assessment, emergency shelter, transitional housing, and permanent supportive housing were created and incorporated into both city and county governments.

In 2008, Cincinnati Union Bethel's "Off the Streets" program was added to the CoC's inventory of emergency shelter beds, when it became apparent that the women the program provides housing to are all homeless. This program targets women who have been involved in prostitution, providing off-site services to those who have housing, but also providing shelter to those women who are homeless (capacity: 20 women). This program has been in existence for several years, but had not previously been recognized as housing exclusively homeless people. The Off the Streets program does not receive SHP, SPC, ESG, or HOPWA funding, but is now coordinating services with and recognized as a part of the CoC.

3. Cincinnati/Hamilton County CoC agencies were awarded approximately \$10.4 million from the 2007 Homeless SuperNOFA, of which approximately \$1.3 million of which were new grants. The awards from the 2008 SuperNOFA had not yet been announced as of January 2009.

## **Specific Homeless Prevention Elements**

1. Identify actions taken to prevent homelessness.

Program Year 4 CAPER Specific Housing Prevention Elements response:

1. A new Family Homelessness Prevention Program (FHPP) was begun with funding from the Ohio Department of Development in January 2008. The Program serves families at risk of becoming homeless. This program is connected for intake purposes to the new Central Access Point (CAP) line which, since March 2008, has been handling intake into the family shelters. Through this connection, homeless families are placed by CAP into shelter; at risk families are placed by CAP into the FHPP program.

Other Homeless Prevention Programs continue to be coordinated by the local FEMA Board and include emergency rent/mortgage/utility assistance etc. Emergency Assistance Centers (e.g. FreeStore/FoodBank, Mercy Franciscan at St. John's are the largest providers of prevention assistance. St. John's and the Center for Independent Living Options have administered prevention programs targeted to prevent homelessness or homeless recurrence through an Ohio Department of Development- homeless support grant and local ESG funds through which they pay emergency assistance designed toward prevention (although no funds were used for this activity in 2008); FreeStore programs such as Direct Rent, which manages welfare checks for families, and the Payee Program, which provides a payee for SSI/SSA checks, ensures rent payments and are critical homeless prevention activities. The Community Action Agency administers the community's energy assistance prevention funds.

## **Emergency Shelter Grants (ESG)**

1. Identify actions to address emergency shelter and transitional housing needs of homeless individuals and families (including significant subpopulations such as those living on the streets).
2. Assessment of Relationship of ESG Funds to Goals and Objectives
  - a. Evaluate progress made in using ESG funds to address homeless and homeless prevention needs, goals, and specific objectives established in the Consolidated Plan.
  - b. Detail how ESG projects are related to implementation of comprehensive homeless planning strategy, including the number and types of individuals and persons in households served with ESG funds.
3. Matching Resources
  - a. Provide specific sources and amounts of new funding used to meet match as required by 42 USC 11375(a)(1), including cash resources, grants, and staff salaries, as well as in-kind contributions such as the value of a building or lease, donated materials, or volunteer time.
4. State Method of Distribution
  - a. States must describe their method of distribution and how it rated and selected its local government agencies and private nonprofit organizations acting as subrecipients.
5. Activity and Beneficiary Data
  - a. Completion of attached Emergency Shelter Grant Program Performance Chart or other reports showing ESGP expenditures by type of activity. Also describe any problems in collecting, reporting, and evaluating the reliability of this information.
  - b. Homeless Discharge Coordination
    - i. As part of the government developing and implementing a homeless discharge coordination policy, ESG homeless prevention funds may be used to assist very-low income individuals and families at risk of becoming homeless after being released from publicly funded institutions such as health care facilities, foster care or other youth facilities, or corrections institutions or programs.

- c. Explain how your government is instituting a homeless discharge coordination policy, and how ESG homeless prevention funds are being used in this effort.

Program Year 4 CAPER ESG response:

1. ESG is recognized as an integral part of the Continuum of Care for the Homeless strategy. For coordination and planning of homeless housing and services, the City of Cincinnati contracts with The Cincinnati/Hamilton County Continuum of Care for the Homeless, Inc., and as the facilitator of the CoC, the funding/administration of ESG is incorporated into the CoC process. Additionally, the CoC process was used to develop the homeless goals/objectives within the Consolidated Plan.

2. Assessment of Relationship of ESG Funds to Goals and Objectives

- a. ESG funds were used in 2008 to support the operations of the following facilities: Bethany House Services (Emergency Shelter), the Center for Respite Care (Emergency Shelter), Lighthouse Youth Crises Center (Emergency Shelter) and Lighthouse Transitional Housing, Mercy Franciscan at St. Johns Temporary Housing and Anna Louise Inn (Emergency Shelters), Salvation Army (Emergency Shelter), the YWCA's Domestic Violence Shelter (Emergency Shelter) , Caracole (Transitional Housing), Interfaith Hospitality Network (Emergency Shelter) , and the Shelterhouse Volunteer Group's Drop Inn Center (Emergency Shelter).

- b. Within the above facilities, from January 1, 2008 to December 31, 2008, 4,442 unduplicated persons were served, an average of 392 adults and 12 children served daily. Income demographics show 97% of those served were extremely low income, another 2% were low income, and the remaining 1% were low-moderate to normal income. All demographic data including: age, sex, ethnicity, income, family composition and special needs have been entered into IDIS by program.

5. Activity and Beneficiary Data

a. 2008 ESG funds were used to support operations at the homeless shelters listed in the table above. Complete beneficiary data is submitted via IDIS Report (ESG Program for Grantee Statistics Report, Co4PR19). There were no problems collecting, reporting and evaluating the reliability of the information on ESG. All Emergency Shelter Grant providers were enrolled in VESTA, the Cincinnati/Hamilton County Continuum of Care for the Homeless' HMIS. Provider data is pulled directly by the Cincinnati/Hamilton County Continuum of Care for the Homeless, Inc. and entered into the CAPER and IDIS. All providers received an annual monitoring visit by the facilitating agency, the CoC, Inc., under contract to provide that service for ESG for the City of Cincinnati. The CoC also monitors the accuracy and timeliness of data input into HMIS.

b. Mercy Franciscan's Rapid Exit program targets preventing homelessness or homeless reoccurrence by paying emergency rent and mortgage assistance, but this program was not funded in 2008. However, a Family Homeless Prevention Program, funded by Ohio Department of Development, began providing assistance in January 2008.

## COMMUNITY DEVELOPMENT

### Community Development

\*Please also refer to the Community Development Table in the Needs.xls workbook.

1. Assessment of Relationship of CDBG Funds to Goals and Objectives
  - a. Assess use of CDBG funds in relation to the priorities, needs, goals, and specific objectives in the Consolidated Plan, particularly the highest priority activities.
  - b. Evaluate progress made toward meeting goals for providing affordable housing using CDBG funds, including the number and types of households served.
  - c. Indicate the extent to which CDBG funds were used for activities that benefited extremely low-income, low-income, and moderate-income persons.
2. Changes in Program Objectives
  - a. Identify the nature of and the reasons for any changes in program objectives and how the jurisdiction would change its program as a result of its experiences.
3. Assessment of Efforts in Carrying Out Planned Actions
  - a. Indicate how grantee pursued all resources indicated in the Consolidated Plan.
  - b. Indicate how grantee provided certifications of consistency in a fair and impartial manner.
  - c. Indicate how grantee did not hinder Consolidated Plan implementation by action or willful inaction.

4. For Funds Not Used for National Objectives
  - a. Indicate how use of CDBG funds did not meet national objectives.
  - b. Indicate how did not comply with overall benefit certification.
5. Anti-displacement and Relocation – for activities that involve acquisition, rehabilitation or demolition of occupied real property
  - a. Describe steps actually taken to minimize the amount of displacement resulting from the CDBG-assisted activities.
  - b. Describe steps taken to identify households, businesses, farms or nonprofit organizations who occupied properties subject to the Uniform Relocation Act or Section 104(d) of the Housing and Community Development Act of 1974, as amended, and whether or not they were displaced, and the nature of their needs and preferences.
  - c. Describe steps taken to ensure the timely issuance of information notices to displaced households, businesses, farms, or nonprofit organizations.
6. Low/Mod Job Activities – for economic development activities undertaken where jobs were made available but not taken by low- or moderate-income persons
  - a. Describe actions taken by grantee and businesses to ensure first consideration was or will be given to low/mod persons.
  - b. List by job title of all the permanent jobs created/retained and those that were made available to low/mod persons.
  - c. If any of jobs claimed as being available to low/mod persons require special skill, work experience, or education, provide a description of steps being taken or that will be taken to provide such skills, experience, or education.
7. Low/Mod Limited Clientele Activities – for activities not falling within one of the categories of presumed limited clientele low and moderate income benefit
  - a. Describe how the nature, location, or other information demonstrates the activities benefit a limited clientele at least 51% of whom are low- and moderate-income.
8. Program income received
  - a. Detail the amount of program income reported that was returned to each individual revolving fund, e.g., housing rehabilitation, economic development, or other type of revolving fund.
  - b. Detail the amount repaid on each float-funded activity.
  - c. Detail all other loan repayments broken down by the categories of housing rehabilitation, economic development, or other.
  - d. Detail the amount of income received from the sale of property by parcel.
9. Prior period adjustments – where reimbursement was made this reporting period for expenditures (made in previous reporting periods) that have been disallowed, provide the following information:
  - a. The activity name and number as shown in IDIS;
  - b. The program year(s) in which the expenditure(s) for the disallowed activity(ies) was reported;
  - c. The amount returned to line-of-credit or program account; and
  - d. Total amount to be reimbursed and the time period over which the reimbursement is to be made, if the reimbursement is made with multi-year payments.
10. Loans and other receivables

- a. List the principal balance for each float-funded activity outstanding as of the end of the reporting period and the date(s) by which the funds are expected to be received.
  - b. List the total number of other loans outstanding and the principal balance owed as of the end of the reporting period.
  - c. List separately the total number of outstanding loans that are deferred or forgivable, the principal balance owed as of the end of the reporting period, and the terms of the deferral or forgiveness.
  - d. Detail the total number and amount of loans made with CDBG funds that have gone into default and for which the balance was forgiven or written off during the reporting period.
  - e. Provide a List of the parcels of property owned by the grantee or its subrecipients that have been acquired or improved using CDBG funds and that are available for sale as of the end of the reporting period.
11. Lump sum agreements
- a. Provide the name of the financial institution.
  - b. Provide the date the funds were deposited.
  - c. Provide the date the use of funds commenced.
  - d. Provide the percentage of funds disbursed within 180 days of deposit in the institution.
12. Housing Rehabilitation – for each type of rehabilitation program for which projects/units were reported as completed during the program year
- a. Identify the type of program and number of projects/units completed for each program.
  - b. Provide the total CDBG funds involved in the program.
  - c. Detail other public and private funds involved in the project.
13. Neighborhood Revitalization Strategies – for grantees that have HUD-approved neighborhood revitalization strategies
- a. Describe progress against benchmarks for the program year. For grantees with Federally-designated EZs or ECs that received HUD approval for a neighborhood revitalization strategy, reports that are required as part of the EZ/EC process shall suffice for purposes of reporting progress.

Program Year 4 CAPER Community Development response:

1. Assessment of Relationship of CDBG Funds to Goals and Objectives

- a. There is a direct relationship between the use of CDBG funds to the priorities, needs, goals and specific objectives identified in the consolidated plan. All programs funded in 2008 are listed under the specific Consolidated Plan objectives in the "2008 Consolidated Plan Action Plan Accomplishments Detail."
- b. An analysis of the extent to which CDBG funds were distributed among different categories of housing needs identified in the Consolidated Plan indicates that sufficient funding was allocated to each Consolidated Plan goal and objective; except where HOME, ESG, or HOPWA funds could be used to meet the objectives. The "Resources Made Available in 2008" table on page 4 lists the distribution of CDBG funding for different goals within the Community Development Department.

c. The table below summarizes all income beneficiary data reported for CDBG funded programs in 2008.

Population Served through CDBG Funded Activities					
	TOTAL	% of Median Income			UNKNOWN
		0-30%	31%-50%	51%-80%	
TOTAL NUMBER	12,553	7,663	2,993	1,651	246
TOTAL PERCENTAGE	100%	61%	24%	13%	2%

2. Changes in Program Objectives

- a. There are not any changes described in program objectives or planned as a result of experiences. In 2008 119.38% of production emphasized activities which benefit low and moderate income people. In 2006 only 59% of project expenditures met that objective, and in 2007 72% of project expenditures met that objective. In order to comply with requirements several prior year projects were moved from SBS to LMJ. This adjustment is shown on the 2008 PR26 report. After the adjustment 75.05% of total expenditures benefited low and moderate income people over the three years.

3. Assessment of Efforts in Carrying Out Planned Actions

- a. The City of Cincinnati pursued all resources that it indicated it would pursue. This is evidenced by leveraged resources in the "Resources Made Available in 2008" table on page 3 of this document and detailed in individual IDIS activities.
- b. The City of Cincinnati provided requested certifications of consistency for HUD programs. Requests for certification are submitted to the Department of Community Development. The department then issues a certification when appropriate.
- c. The City of Cincinnati did not hinder Consolidated Plan implementation by action or willful inaction. The City of Cincinnati ensures that all Consolidated Plan funds expended support Consolidated Plan objectives. When implementing new policies or procedures, impact on Consolidated Plan objectives is evaluated as part of the decision criteria by both the Community Development Administrator in the Budget Office and the Department of Community Development staff.

4. For Funds Not Used for National Objectives

- a. CDBG funds were used exclusively for the three national objectives.
- b. The overall benefit certification was complied after an Action Plan amendment was submitted changing the certification to three years (2006-2008).

5. Anti-displacement and Relocation – for activities that involve acquisition, rehabilitation or demolition of occupied real property.

- a. In 2008 steps were actually taken to minimize the amount of displacement resulting from CDBG assisted activities. In all cases where Federal funds were utilized, the City's Real Estate Office followed the guidelines of the Federal Uniform Relocation Assistance and Real Property Acquisition Act of 1978 as amended (URA), in order to minimize the amount of displacement that occurred. For budget and advanced planning purposes, relocation cost estimates were prepared and submitted to City development staff and local developers/project managers prior to project approval. Accordingly,

displacees were individually interviewed and they received counseling and other advisory services required by the URA. Through this process, relocation staff members were able to determine the nature of the displacees' needs and preferences. Further, all displacees, including those of third party grantees, received the appropriate General Information Notices and the Notices of Eligibility. These notices were properly sent by registered mail, or hand-delivered with a signed receipt copy. During 2008

- b. the following relocation activities occurred:
  - There were not any URA displacement cases (CDBG and/or HOME) initiated in 2008.
  - There were 1,163 new Rental Rehabilitation units added to the monitoring program in 2008.
  - Real Estate Services relocation staff monitored all federally funded projects involving demolition, acquisition, or rehabilitation in which displacement was not required.

Additionally, The City operates a voluntary CDBG-funded Code-Related Relocation Program that provides assistance to tenants who must relocate because of the enforcement of building or health codes. Assistance is provided in locating a standard unit, paying the first month's rent and/or security deposit and moving costs. Of 204 families assisted under this program in 2008, 34 were given relocation assistance because children were found to have elevated blood lead levels, 20 were displaced due to fires, and the remaining 150 were families living in rental units which had orders to vacate issued by the City's Buildings and Inspections Department.

The City operates a CDBG-funded Tenant Assistance Program, provides assistance to tenants seeking decent affordable housing. In 2008, 3,857 tenants were provided assistance through this program.

During 2008, there were 50 Section 8 tenants that were received assistance through the Code-Related Relocation Program.

- c. The steps taken to identify households, businesses, farms or non-profit organizations who occupy the site of a CDBG-assisted project subject to the requirements of the Uniform Relocation Act (URA), included ensuring that relocation cost estimates were prepared and submitted to City development staff and local developers/project managers prior to project approval. Accordingly, displacees were individually interviewed and they received counseling and other advisory services required by the URA. Through this process, relocation staff members were able to determine the nature of the displacees' needs and preferences.
  - d. City staff performed timely issuance of information notices to displaced households, businesses, farms or nonprofit organizations. These notices were properly sent by registered mail, or hand-delivered with a signed receipt copy.
6. Low/Mod Job Activities – for economic development activities undertaken where jobs were made available but not taken by low- or moderate-income persons
- a. Jobs Made Available: Small business loans made by the City to private for-profit businesses are primarily qualified under the National Objective of job creation for low and moderate-income persons. The Cincinnati Small

Business Loan Fund agreements require that at least 51% of the jobs created are “held by”, rather than “made available to” low and moderate-income persons. In addition to those agreements using CDBG funds, all other City funding agreements with private, for-profit businesses require the business to consider low and moderate-income persons with appropriate skills.

In 2008 the City of Cincinnati received and reviewed 50 loan applications. It is common for applicants to apply before they have all components in place necessary for funding. The City spends time assisting these applicants by identifying additional components of the application necessary to qualify for funding. In 2008 three loans were completed.

- b. Listing of all the permanent jobs created/retained and those that were available to low/mod persons: The Cincinnati Small Business Loan Funds are comprised of two loan programs: the MicroCity Loan Fund and the Grow Cincinnati Fund. In 2008, one Grow Cincinnati loan was closed. In December 2008, the Grow Cincinnati loan to Jeffrey Waite and Associates, Incorporated resulted in the retention of (5) FTEs.

In 2008, two MicroCity loans were closed. In January 2008, the MicroCity loan to Real Estate Market Services, Incorporated resulted in the creation of (1) FTE. In October 2008, the MicroCity loan to Women of Styles Salon, Incorporated resulted in the creation of (2) FTEs.

Each loan recipient will report the individual job creation data as requested by the City throughout 2009 and the remainder of the compliance period.

- c. In 2008 no jobs made available to low/mod persons required special skill, work experience, or education.
7. Low/Mod Limited Clientele Activities – for activities not falling within one of the categories of presumed limited clientele low and moderate income benefit
- a. Non-presumed low/mod limited clientele activity benefits clientele which at least 51% are low/mod explanations:
- Tenant Assistance (Annual allocation) – All families assisted under this program are provided referrals which enable them to find subsidized or affordable housing.
  - Earned Income Tax Credit and Financial Literacy (Annual allocation) – This program provides information and tax preparation assistance to city residents who may qualify for the earned income tax credit.
  - Prison Reform Advocacy Project (Activity completed) – The second chance legal clinic assists ex-offenders in eliminating barriers to employment. Services are provided by the Freestore, which serves low income and homeless persons in the Over-the-Rhine neighborhood.
  - The Solid Opportunities for Advancement and Retention (SOAR) program makes participants more employable by changing attitudes and raising self-esteem.
  - Blueprint for Success – (Annual Allocation) – This activity is made available to at-risk youth and convicted felons in the Empowerment Zone

and is delivered by the Community Action Agency, a Community-Based development organization.

- Section 8 Tenant Counseling and Placement (Annual Allocation) – This activity is made available to Section 8 Voucher holders which are, by definition, of low-income.
8. Program income received: Total CDBG program income received in 2008 was \$1,535,784. This amount is \$464,216 lower than the estimated program income amount of \$2,000,000. The decrease is mainly due to lower than expected multi-family loan repayments and small business loan repayments, in addition to other minor decreases. Complete program income detail is contained in the table below.

<b>CDBG Program Income Analysis</b>		
	Revenue Code	2008 Actual

<b>Total</b>		<b>\$1,535,784.00</b>

- a. Activity that generated program income to a revolving loan fund - None
  - b. Program income from float funded activities – None
  - c. Other loan repayments, prior year adjustments – None
  - d. Income from the sale of real property - \$86,311
9. Prior period adjustments – where reimbursement was made this reporting period for expenditures (made in previous reporting periods) that have been disallowed, provide the following information:
- a. It was determined that City expenditures on the Huntington Meadows development project did not comply with HOME regulations. As a result the City entered into a settlement agreement with the Department of Justice. This agreement included the repayment of \$3,950,000 to the Department of Housing and Urban Development for the Huntington Meadows development project (1931 Langdon Farm Road), IDIS no. 354.
  - b. HOME funding was expended for the Huntington Meadows development project from 1997-2000.

- c. The total amount has been returned to line-of-credit of \$3,950,000; the Huntington Meadows activity has been cancelled; and all funding removed from that activity.
- d. The total amount to be reimbursed was \$3,950,000. The first payment of \$1,500,000 was made in July 2007. The second payment of \$1,225,000 was made in January 2008. One final payment totaling \$1,225,000 was made in January 2009.

10. Loans and other receivables

- a. Currently the City of Cincinnati does not have any float-funded activities outstanding.
- b. The City of Cincinnati has 1,030 other loans outstanding with outstanding balances totaling \$81,082,906.12.
- c. Loans outstanding or written off: Of 1,030 loans being serviced for housing and economic development activities (including CDBG, HOME, and local resources) 40 Rental Rehabilitation loans were written off because the HOME affordability period expired and the loans were forgiven.
- d. No loans made with CDBG funds went into default or were forgiven during 2008.
- e. No Parcels of CDBG-acquired property were available for sale in 2008.

11. Lump sum agreements: None

12. Housing Rehabilitation – for each type of rehabilitation program for which projects/units were reported as completed during the program year

- a. The City of Cincinnati has three major housing programs that are focused on or may involve housing rehabilitation. Those programs are the Strategic Housing Initiatives program, the Homeowner Rehab Loan and Lead Abatement Grant program, and the Rental Rehabilitation program. The Strategic Housing Initiatives program was the only program that received CDBG funding to support housing unit production. In 2008 no units were completed. CDBG funding supports project delivery costs for the other two housing programs, the Homeowner Rehab Loan and Lead Abatement Grant program of which one unit was completed in 2008, and the Rental Rehabilitation program, in which 42 rental units were completed in 2008. These two programs also receive HOME funding which supports housing rehabilitation costs.
- b. CDBG funds involved in the program include \$59,178.78 drawn down for program delivery and units yet to be completed through the Strategic Housing Initiatives Program. The Homeowner Rehab Loan and Lead Abatement Grant Program drew down \$213,124.21 in CDBG funds to support project delivery. The Rental Rehabilitation program drew down \$211,797.09 in CDBG funding to support project delivery.
- c. No additional public or private funding was reported for these projects.

13. Neighborhood Revitalization Strategies – for grantees that have HUD-approved neighborhood revitalization strategies

- a. Four neighborhoods were selected for the Neighborhood Revitalization Strategy Area (NRSA) pilot project based on the identification of sites having the potential for large “transformative” projects. These neighborhoods include: College Hill, Walnut Hills, Avondale, and Madisonville. Other HUD

approved NRSA's include the Empowerment Zone and the City West HOPE VI redevelopment.

### **College Hill**

The College Hill NRSA application was approved by HUD on August 31, 2004.

Strategies and activity in the College Hill NRSA are as follows:

1. **North Bend Road and Hamilton Avenue Vacant Properties – mixed-use redevelopment** -- Linden Park Commons is a redevelopment project located at the corner of Hamilton Avenue and North Bend Road in College Hill. A market feasibility study is currently underway to determine the best end use at the site. To date, the City has invested approximately \$1.6 million in property acquisition and demolition.
2. **Neighborhood Business District (NBD) Infrastructure Improvements** -- \$1.6 million in streetscape improvements were mostly completed in 2005. The façade improvement program is scheduled to wrap up in 2009. Numerous property owners have leveraged the City's matching façade grant with their private investment to rehabilitate their establishments. The new storefronts have been appearing along Hamilton Ave. in the heart of the College Hill business district. Over \$150,000 in CDBG funds have been invested to date in the façade program. New parking will soon be created in the middle of the neighborhood business district in order to enhance the district. The City is working to acquire the necessary properties. Lastly, new entrance signage and gateways are currently being added along Hamilton Avenue and should be completed in 2009.
3. **Concentrated Code Enforcement with home and business owner education** -- The Neighborhood Enhancement Program (NEP) will be done in College Hill between March and June of 2009. The NEP is a 90-day, collaborative effort between City departments, neighborhood residents and community organizations to develop community assets. Integrated services delivery includes: Concentrating building code enforcement, identifying and 'cooling down' crime hot spots, cleaning up streets, sidewalks, and vacant lots, and engaging property owners and residents to create and sustain a more livable neighborhood after the first 90 days.
4. **Enhanced Neighborhood Safety** -- Safety is being addressed in 2009 through an updating of the community's security cameras using CDBG funds.

### **Walnut Hills**

Activities in Walnut Hills include:

1. **Neighborhood Business District (NBD)** -- Enhancements include the streetscape design, façade improvements and other revitalization efforts along Peebles Corner /East McMillan Avenue neighborhood business district. Streetscape design work was completed during 2008

and included a study of infrastructure conditions at each of the four corners at Gilbert Avenue and East McMillan Avenue. The Mayor's Institute on City Design (MICD) completed a three-day workshop to study existing conditions and identify development opportunities within the southwest quadrant of the neighborhood. City Council approved the use of tax incentive district (TIF) revenue for projects within the business district. The City continues to work with neighborhood stakeholders to identify redevelopment opportunities for City-owned land in the 700 block of East McMillan. The Storefront Improvement Program was completed building façade improvements for properties along E. McMillan Avenue and Gilbert Avenue in the NBD. In addition, the City initiated the clean-up of a park located at Lincoln Avenue and Gilbert Avenue by clearing overgrown brush and repairing damaged masonry work.

2. **Education, Job Skills Training, Resident Self-Sufficiency and Neighborhood Safety Initiatives** -- The restored Walnut Hills Presbyterian bell tower is a Walnut Hills neighborhood landmark: a symbol of diversity, equality and community. Anchoring an important corner, it reinforces revitalization work underway in the Walnut Hills community. Plans for future use of the tower include exhibits, lectures, and training. Fund-raising efforts are currently underway to complete the interior of the Tower for future use. At present, Cincinnati Preservation Association, a local non-profit, supports the operating cost of the structure. In addition, progress has been made on the installation of a fiber loop. The initial 1.3 miles of the fiber has been successfully installed. The first group of low income residents have received initial computer literacy training and have acquired computers for their homes through the successful partnership with Cincinnati Computer Cooperative. The beta test for the associated wireless network designed to deliver low/no cost internet access to low income residents in the Walnut Hills NRSA area will begin with the resident group who have completed the classes and received computers. The neighborhood has filed papers with the State of Ohio to form the NeighborhoodWorks.Net Cooperative that will sustain and expand technology access to residents and businesses throughout the NRSA area.

### **Avondale**

Activities in Avondale include:

1. **NBD Improvements** -- City land transfers and infrastructure improvements in the Avondale neighborhood continue to stimulate private investment in the ongoing implementation of the Burnet Avenue Urban Renewal Plan. A combination of public and private investment totaling approximately \$52 Million includes a 468,000 square foot, 1450-car parking garage, a six-story 30,000 square foot medical office building and a three-story 45,000 square foot office building. The developer has also agreed to invest approximately \$5,000,000 for public infrastructure improvements in streets and utilities. The 45,000 square foot office building is scheduled to open during Spring 2009. In 2008, the City also granted an additional

\$30,000.00 to the Avondale Community Council to design and construct gateway entrances to four neighborhood business districts.

### **Madisonville**

HUD approved the Madisonville NRSA application on January 17, 2008. Strategies and activity in the College Hill NRSA are as follows:

- 1 Business Development and Revitalization** -- This focus area seeks to directly impact the high rate of vacancy in the NBD particularly in the four block area centered by the Madison Road and Whetsel intersection; the blighting conditions that are a direct result of the vacant and dilapidated storefronts outnumbering retail establishments; unemployment and underemployment of residents in the area; undercapitalized entrepreneurs; and the long-term viability of the area. One of the main goals is to redevelop vacant and underutilized retail and commercial properties throughout the entire NBD but with a particular emphasis on the Madison/ Whetsel intersection.
- 2. Housing Improvements and Residential Development and Redevelopment** -- This focus area seeks to directly impact the high rate of vacant/ deteriorated buildings with documented code violations; the provision of housing opportunities for all segments of the population; the increasing number of foreclosures in the area; and housing maintenance services for the elderly and income eligible households. An inventory of existing housing conditions within the area is currently in progress. Preliminary examination highlighted the need for a number of initiatives including: homeowner rehab assistance and a home exterior improvement program to eliminate code issues, assistance to non-profit housing groups for acquisition and rehab of properties, and increased use of the City's existing Receivership program. Throughout the strategy area there are opportunities for the creation of new housing units. New single-family homes, condominiums and apartments can be constructed in the key focus areas as well as on in-fill lots.
- 3. Safety** -- This focus area seeks to directly impact increasing crime in the NBD, residents not feeling safe (real and perceived) and code violations and littering that contribute to the problems. The community has a number of successful programs already in place (such as Citizens on Patrol, CPOP, Weed and Seed, Second Chance Program) and has been successful in securing funds for surveillance programs within the NBD. The purpose of the NRSA initiatives is to expand upon the existing programs and to ensure that the necessary financial resources and equipment are allocated to improve safety within the area.
- 4. Community Capacity Building** -- This focus area seeks to directly impact the lack of financial and technical resources to sustain comprehensive community development and to ensure that the initiatives proposed within the NRSA have a measurable success. As implementation of community goals evolves, establishing a CBDO to

oversee the activities within the NRSA and to provide more opportunities for resident involvement is a consideration. The community is also committed to establishing increased social, recreation and educational programs for youth and young adults.

### **Empowerment Zone**

The Cincinnati Empowerment Corporation (CEC) executed a loan for \$11,600 with Venice Pizza for interior renovations. The renovations were necessary to make the restaurant more comfortable during the summer months. The CEC also executed a loan for \$150,000 with Enzo's coffee shop for working capital. Both establishments are located in the Over-the-Rhine community. The loans were made through the CEC's E-Fund Loan Program.

Note: The CEC was involved in talks associated with 3000 Vine Street, but was not a party to the final deal.

### **HOPE VI**

The City of Cincinnati began discussions in 2008 with the Cincinnati Metropolitan Housing Agency to close out the HOPE VI development, known as City West. City West is made up of two development phases comprised of the former Lincoln Court and Laurel Homes site. The development now includes more green space, mixed-income town homes, affordable rental units, and newly constructed retail all centrally located adjacent to downtown Cincinnati.

The Department of Community Development is working with other City Agencies to inspect and approve the final infrastructure and unit count in the development. As a result of slowing sales in 2008 and unsuccessful attempts to secure tax credits for the remaining two phases of the development, the City has agreed to discuss a reduction in housing unit production in the project. According to CMHA, the US Department of Housing and Urban Development has approved their request to reduce or change the number of units in the original HOPE VI application.

## **Antipoverty Strategy**

1. Describe actions taken during the last year to reduce the number of persons living below the poverty level.

Program Year 4 CAPER Antipoverty Strategy response:

1. The City's primary means of reducing the number of persons living below the poverty level is to promote business development opportunities and provide job training and other employment opportunities. The programs funded that address these objectives are described in the Project Report Detail.

## NON-HOMELESS SPECIAL NEEDS

### Non-homeless Special Needs

\*Please also refer to the Non-homeless Special Needs Table in the Needs.xls workbook.

1. Identify actions taken to address special needs of persons that are not homeless but require supportive housing, (including persons with HIV/AIDS and their families).

Program Year 4CAPER Non-homeless Special Needs response:

1. HOPWA funds were used in 2008 to provide: short term rent/mortgage/utility (STRMU) assistance to 172 households, an operating subsidy for congregate living facilities that served 45 individuals, and supportive services for 322 persons receiving HOPWA and non-HOPWA housing assistance. Of those receiving STRMU, 52% had an outcome of "stable/permanent housing", 38% had an outcome of "temporarily stable, with reduced risk of homelessness", 8% were at a "reduced risk of homelessness" and none had an "unstable arrangement" outcome. (The remaining 2% represents two STRMU recipients who passed away during the program year.)

This stabilization translates into other benefits as well. Of the 217 people who received HOPWA housing assistance (either STRMU or at the congregate facilities), about 86% accessed or maintained qualification for sources of income, and 90% accessed medical insurance/assistance.

### Specific HOPWA Objectives

\*Please also refer to the HOPWA Table in the Needs.xls workbook.

1. Overall Assessment of Relationship of HOPWA Funds to Goals and Objectives  
Grantees should demonstrate through the CAPER and related IDIS reports the progress they are making at accomplishing identified goals and objectives with HOPWA funding. Grantees should demonstrate:
  - a. That progress is being made toward meeting the HOPWA goal for providing affordable housing using HOPWA funds and other resources for persons with HIV/AIDS and their families through a comprehensive community plan;
  - b. That community-wide HIV/AIDS housing strategies are meeting HUD's national goal of increasing the availability of decent, safe, and affordable housing for low-income persons living with HIV/AIDS;
  - c. That community partnerships between State and local governments and community-based non-profits are creating models and innovative strategies to serve the housing and related supportive service needs of persons living with HIV/AIDS and their families;
  - d. That through community-wide strategies Federal, State, local, and other resources are matched with HOPWA funding to create comprehensive housing strategies;
  - e. That community strategies produce and support actual units of housing for persons living with HIV/AIDS; and finally,

- f. That community strategies identify and supply related supportive services in conjunction with housing to ensure the needs of persons living with HIV/AIDS and their families are met.
2. This should be accomplished by providing an executive summary (1-5 pages) that includes:
  - a. Grantee Narrative
    - i. Grantee and Community Overview
      - (1) A brief description of your organization, the area of service, the name of each project sponsor and a broad overview of the range/type of housing activities and related services
      - (2) Barriers How grant management oversight of project sponsor activities is conducted and how project sponsors are selected
      - (3) A description of the local jurisdiction, its need, and the estimated number of persons living with HIV/AIDS
      - (4) A brief description of the planning and public consultations involved in the use of HOPWA funds including reference to any appropriate planning document or advisory body
      - (5) What other resources were used in conjunction with HOPWA funded activities, including cash resources and in-kind contributions, such as the value of services or materials provided by volunteers or by other individuals or organizations
      - (6) Collaborative efforts with related programs including coordination and planning with clients, advocates, Ryan White CARE Act planning bodies, AIDS Drug Assistance Programs, homeless assistance programs, or other efforts that assist persons living with HIV/AIDS and their families.
    - ii. Project Accomplishment Overview
      - (1) A brief summary of all housing activities broken down by three types: emergency or short-term rent, mortgage or utility payments to prevent homelessness; rental assistance; facility based housing, including development cost, operating cost for those facilities and community residences
      - (2) The number of units of housing which have been created through acquisition, rehabilitation, or new construction since 1993 with any HOPWA funds
      - (3) A brief description of any unique supportive service or other service delivery models or efforts
      - (4) Any other accomplishments recognized in your community due to the use of HOPWA funds, including any projects in developmental stages that are not operational.
    - iii. or Trends Overview
      - (1) Describe any barriers encountered, actions in response to barriers, and recommendations for program improvement
      - (2) Trends you expect your community to face in meeting the needs of persons with HIV/AIDS, and
      - (3) Any other information you feel may be important as you look at providing services to persons with HIV/AIDS in the next 5-10 years

b. Accomplishment Data

- i. Completion of CAPER Performance Chart 1 of Actual Performance in the provision of housing (Table II-1 to be submitted with CAPER).
- ii. Completion of CAPER Performance Chart 2 of Comparison to Planned Housing Actions (Table II-2 to be submitted with CAPER).

**2(a)(i)(1-6)**

**Overview of Project Sponsors and Activities**

In 2008, four sponsor agencies received HOPWA funds through the City of Cincinnati:

- The Center for Respite Care received HOPWA funds for the first time in 2008. They provide shelter combined with medical care to homeless persons who are too sick for a traditional shelter, and need stabilization before moving to transitional or permanent housing. Clients have access to medical care in addition to a case manager who assists in obtaining stable housing upon exit. HOPWA funds are used for supportive services for persons with HIV/AIDS in their shelter.
- Caracole, Inc. provides transitional facility-based housing for persons with HIV/AIDS at two facilities: Caracole House, a congregate facility for single adults, and the Recovery Community, a congregate residence specifically designed for persons dually diagnosed with HIV/AIDS and substance abuse. They also provide HOPWA-funded supportive services for clients in their Shelter Plus Care program.
- Stop AIDS (formerly AIDS Volunteers of Cincinnati) provides STRMU assistance and supportive services to persons with HIV/AIDS throughout the Greater Cincinnati HIV/Case Management Network.
- Northern Kentucky Independent District Health Department (NKIDHD) provides STRMU assistance to persons with HIV/AIDS in the seven Kentucky counties of the EMSA. NKIDHD also was awarded funding to provide short-term assistance to those few persons in the Indiana counties within the EMSA. This agency uses other funding to provide services to clients assisted with HOPWA housing assistance.

These four local agencies play major roles in the provision of case management and housing services to the population of persons with HIV/AIDS. Other members of the case management network include the Infectious Diseases Clinic, the Cincinnati Health Network, and The Greater Cincinnati AIDS Consortium, a regional clearinghouse for HIV/AIDS information and services, continues to play a key role in helping coordinate efforts to combat HIV/AIDS across the region.

**Sponsor Selection and Grant Management Oversight**

These project sponsors were selected for 2008 by a HOPWA Advisory Committee consisting of government officials, members of the medical community, non-profit organization representatives and HIV/AIDS service consumers/advocates from Indiana, Kentucky, and Ohio, and representatives of the Greater Cincinnati AIDS

Consortium (GCAC). The sponsors' applications were solicited through a regional request for proposals process electronically sent to the entire GCAC mailing list.

The City of Cincinnati contracts with The Cincinnati/Hamilton County Continuum of Care for the Homeless, Inc. (CoC) to provide oversight of grant management of the project sponsor activities. Services provided by CoC include:

- Application – release, collection
- Allocation Process – convene and facilitate HOPWA Advisory Committee to determine recipient agencies/funding levels
- Report on Allocation Process results – following requirements of the CDAB and city budget process
- Scope of services – development in conjunction with agencies/review/approve
- Contract – development and facilitation of city and agency execution
- Monthly draw – review/approval/processing
- Monitoring – monitor contract compliance and work with HUD Field Office staff during any HUD monitoring visits.
- Reporting – request Annual Progress Report and/or IDIS completion data from providers
- Reporting – preparation of the CAPER and/or other reports required by the Department of Community Development and Planning, Finance, or the City Manager.

### **Local Jurisdiction and Estimation of Need**

The Cincinnati EMSA includes 15 counties: five in Ohio, seven in Kentucky, and three in Indiana. The estimate of each county's need is determined by assessing the cumulative number of HIV/AIDS cases as a percentage of the total. This estimation of need is then applied as a guide for allocating funds. Since there is no Indiana sponsor agency, the Indiana portion is typically allocated to the Kentucky or Ohio agency that has committed to serving Indiana clients.

### **Community Planning Overview**

In order to fully examine the needs of the community for HIV/AIDS housing, two studies have been conducted by consultants on behalf of the City of Cincinnati since it became the EMSA grantee in 1998. The first, conducted by Michelle Budzek (President of The Partnership Center, formerly the facilitator of the local HOPWA process until the contract was transferred) was to design a funding distribution and allocation process for HOPWA funds. This project examined the pro-rata need for each jurisdiction, made preliminary gaps analyses, developed a project application, and convened the above mentioned HOPWA Advisory Committee. The second project was the Cincinnati EMSA Needs Assessment, conducted by Steven Howe, Ph.D. This comprehensive assessment included key informant interviews, secondary data collection, provider site visits, and focus groups. The results were presented at a public forum, published, and made available regionally. The determinations of the assessment were used as the basis for allocating the most recent round of HOPWA funding. On-going evaluation of all services and housing for HIV/AIDS is provided by the Greater Cincinnati AIDS Consortium in cooperation with Ryan White funding, Prevention planning and HOPWA.

### **Other Resources**

Each HOPWA sponsor agency brings leveraged resources to the table, and conversely, HOPWA funding provides valuable leverage to obtain other resources. For example, Caracole, Inc. provides Shelter Plus Care tenant-based rental subsidies to persons and families with HIV/AIDS, and HOPWA funds help provide the

supportive services, the “plus care” piece, that is required by Shelter Plus Care Regulations. In total, HOPWA funds are leveraged by over 3 million dollars at the four sponsor agencies in the EMSA.

### **Collaborative Efforts**

The HOPWA Advisory Committee membership provides diverse perspectives on HIV/AIDS issues and represents the collaborative effort of the community. Two of its members serve on the Greater Cincinnati Ryan White Committee, three represent HOPWA planning departments in each of the three states, three of the service provider agencies represented are also active participants in the Continuum of Care for the Homeless process, and two committee members represent advocate groups. Additionally some of the aforementioned are themselves consumers. Thus perspectives and coordination on HIV/AIDS drug programs, Ryan White service programs, care programs and homeless programs are represented within the Advisory Committee and are coordinated on a year-round basis.

### **2(a)(ii)(1-4)**

#### **Summary of Housing Activities**

Locally, HOPWA funds are used to support housing activities at three organizations: Caracole, Northern Kentucky Independent District Health Department (NKIDHD), and Stop AIDS. Caracole provides transitional facility-based housing, and NKIDHD and Stop AIDS provide STRMU assistance. (The Center for Respite Care, which received a small portion of our EMSA’s HOPWA allocation for supportive services for the first time in 2008, provides emergency shelter that is funded through other sources.)

#### **Housing Created**

No housing units have been created through acquisition, rehabilitation, or new construction with HOPWA funds.

#### **Unique Supportive Service / Service Delivery Model**

One unique service delivery effort was implemented this year at STOP AIDS. Clients have always been assigned a medical case manager, but for clients with unstable housing there is now a separate position to serve them: a housing specialist. (This is actually 1.5 People who provide this service) This is a position with whom the medical case manager coordinates, but who focuses exclusively on the client’s housing needs. This means that the client retains a medical case manager they are comfortable with, while receiving the services of a housing specialist, whose primary job is to know and understand housing issues and access appropriate housing assistance when necessary through local resources and funding received by the agency (I.e. HOPWA, Ryan White Part B, EFSP, etc.).

#### **Accomplishments due to HOPWA funds**

There are no new projects in development; however the existing projects continue to be an important piece of our Community’s Continuum of Care, as well as important leverage for projects funded by other sources for homeless and low-income persons with HIV/AIDS.

**2(a)(iii)(1-3)**

**Barriers and Trends Within the Community**

Barriers Encountered: Some of the barriers continue to be the lack of affordable housing, increasing cost of utilities, long waiting lists for Section 8, and finding housing for persons with criminal records (the last two items in regard only to moving people out of emergency and transitional housing rather than STRMU). The community continues to increase the stock of supportive permanent and transitional housing for homeless persons, both through HUD's Supportive Housing Program and Shelter Plus Care, thus providing more housing opportunities for those disabled and displaced by HIV/AIDS.

HOPWA funded agencies continue to work closely with all HIV/AIDS service and housing providers to coordinate services as well as make sure available funds are accessible to those in need. In 2008 a non-HOPWA funded agency, the Cincinnati Health Network (CHN), hired an HIV Outreach Worker. This person works on Cincinnati's mobile medical van (operated by CHN) for homeless and low-income persons, and specializes in the needs of persons with HIV/AIDS in terms of testing and connecting persons to services/housing as needed.

Expected trends/issues in meeting the needs of persons with HIV/AIDS include:

- the continued shifting of the population demographics, away from predominately white gay men to increasingly women and persons of color.
- the overall impact of the cost of drugs – causing a choice by Ryan White in many cases to choose between drugs or services.

<b>Project Name:</b> Drug Elimination Program							
<b>Description:</b>	<b>IDIS Project #:</b> <b>UOG Code:</b> OH391062 CINCINNATI						
This project provides funding for increased law enforcement activity in Over-the-Rhine to replace the HUD Drug Elimination Grant program. These officers engage in drug enforcement activities, including investigation, surveillance, and arrest of drug traffickers. It is anticipated that these enforcement activities will also lead to the arrests of criminals for offenses other than and/or related to drug trafficking and abuse. The Over-the-Rhine Chamber of Commerce will be responsible for collecting data and tracking activity.

<b>Project Name:</b>		Human Services Facility Renovations						
<b>Description:</b>		<b>IDIS Project #:</b>		<b>UOG Code:</b>		OH391062 CINCINNATI		
This project account would provide funding for service facility renovations, including those recommended by the Human Services Advisory Committee as part of the budget development process. Combining the funding into a single project account provides flexibility in cases where funding previously allocated for one facility is not needed and can then be allocated to another facility which encounters cost overruns.

<b>Project Name:</b> Lead Hazard Testing Program							
<b>Description:</b>	<b>IDIS Project #:</b> <b>UOG Code:</b> OH391062 CINCINNATI						
This project provides funding for lead inspections of residences occupied by children who have been identified as having an elevated blood lead level (EBL). This past year the program received more than 166 children referred for investigations. The State of Ohio has lowered the blood lead criteria level, which requires intervention to 15 ug/dl of blood. In addition, the program is being modified to respond to complaints from households where a child may be exposed to lead but has not yet been diagnosed.

<b>Project Name:</b>		Neighborhood Gardens						
<b>Description:</b>		<b>IDIS Project #:</b>		<b>UOG Code:</b>		OH391062 CINCINNATI		
The Neighborhood Gardens Program is used to transform vacant and blighted lots throughout the City into attractive, productive uses as Community Gardens. The program assists residents in low- and moderate-income neighborhoods in developing these vacant lots into gardens, which can accommodate 10-30 families each. Participants are able to supplement tight food budgets with fresh grown produce, clean up and maintain their neighborhoods, as well as have access to educational and recreational opportunities.

<b>Project Name:</b>		Hazard Abatement Program					
<b>Description:</b>		<b>IDIS Project #:</b>		<b>UOG Code:</b>		OH391062 CINCINNATI	
The mission of the Hazard Abatement Program is the preservation of the public health, safety, and welfare through demolition and barricading of abandoned buildings. The Barricade Program was initiated in 1993 for the purpose of securing vacant abandoned buildings against entry by trespassers. Under the Demolition Program, condemned buildings citywide are demolished after normal code enforcement activities have been exhausted.

<b>Project Name:</b>		Concentrated Code Enforcement					
<b>Description:</b>		<b>IDIS Project #:</b>		<b>UOG Code:</b>		OH391062 CINCINNATI	
House-to-house inspections are conducted in targeted areas to provide comprehensive inspection of areas in transition. Corrections achieved through Concentrated Code Enforcement involve repairing porches, windows, and siding; painting; and removal of dilapidated garages, fences and sheds, junk cars and weeds. Owners receiving orders are informed of funding availability through the Department of Community Development to correct violations.

<b>Project Name:</b>		Strategic Program for Urban Redevelopment						
<b>Description:</b>		<b>IDIS Project #:</b>		<b>UOG Code:</b>		OH391062 CINCINNATI		
This project facilitates the redevelopment of abandoned, vacant, or underutilized industrial and commercial sites where expansion or redevelopment may be complicated by environmental contamination. The funds will be used to acquire property, remediate contamination, construct public improvements, and perform activities to facilitate redevelopment of brownfield sites. No money has been planned in 2008 due to the slum and blight cap restrictions. This project continues and will likely receive future CDBG resources.

<b>Project Name:</b>		Tenant Representation						
<b>Description:</b>		<b>IDIS Project #:</b>		<b>UOG Code:</b>		OH391062 CINCINNATI		
The Tenant Representation Project (TRP) administered by the Legal Aid Society provides legal representation for low and moderate-income tenants in the City of Cincinnati. The TRP project prevents homelessness by stopping unlawful evictions, corrects illegal lockouts and utility shutoffs, and requires landlords to complete repairs to make rental units decent, safe, and sanitary. The project also prevents retaliation against tenants who ask the City Building and Health Departments to inspect for code violations.

<b>Project Name:</b>		Code Enforcement Relocation						
<b>Description:</b>		<b>IDIS Project #:</b>		<b>UOG Code:</b>		OH391062 CINCINNATI		
This project allows the Relocation Services Office to pay the first month's rent or security deposit for persons moving to decent, safe and sanitary housing who have been displaced by code enforcement and/or the hazards of lead paint. Relocation staff take applications from low-income persons for subsidized housing and provide vacancy lists and management company lists to clients. The City assists approximately 150-250 displaced families/persons per year. Qualified participants receive up to \$650 for rental assistance and moving costs. In addition, low/moderate income

<b>Project Name:</b>		Tenant Assistance					
<b>Description:</b>		<b>IDIS Project #:</b>		<b>UOG Code:</b>		OH391062 CINCINNATI	
Each year, approximately 3,000 to 4,000 persons contact the Relocation Services Office requesting assistance in finding housing or seeking information about the various types of housing available. These persons are counseled on how and where to find housing. They are also provided with a list of housing managers and specific referrals may be given.

<b>Project Name:</b> Emergency Mortgage Assistance							
<b>Description:</b>	<b>IDIS Project #:</b> <b>UOG Code:</b> OH391062 CINCINNATI						
This program provides up to three months of mortgage payments for low-income City of Cincinnati homeowners facing foreclosure due to job loss, illness, death of the primary wage earner, or other circumstances beyond their control. Homeowners may receive this assistance to bring their loan current if they have reestablished an income stream. All clients in mortgage trouble receive in-depth foreclosure prevention counseling, a case management approach that links them with other social service agencies.

<b>Project Name:</b>		Tap/Permit Fee Assistance Program					
<b>Description:</b>		<b>IDIS Project #:</b>		<b>UOG Code:</b>		OH391062 CINCINNATI	
The program is designed to pay or reimburse Habitat for Humanity for utility tap fees, building permit fees, water and sewer permit fees, and remote meter fees related to the construction of eligible new single-family dwellings and some rehabilitation of existing properties. These units are intended for sale to and occupancy by low- to moderate-income households. Additionally, Habitat for Humanity may be reimbursed for construction modifications that enable the units to blend with the existing neighborhood styles and context.

<b>Project Name:</b> Housing Maintenance Services							
<b>Description:</b>	<b>IDIS Project #:</b> <b>UOG Code:</b> OH391062 CINCINNATI						
Housing Maintenance Services provide grants for emergency and critical repairs to very low-income homeowners (below 50% of area median family income), most of whom are elderly. Emergency Services are limited to two emergencies per household per year, with a third emergency on a case-by-case basis. The maximum amount for an emergency repair is \$2,000. Critical repairs are those needed for the safety of the client and the integrity of the home, and may not exceed \$5,000 without City approval.

### 2008 Consolidated Plan Action Plan Accomplishments Detail

**City of Cincinnati**  
**2008 Action Plan**  
**Goals, Objectives, and Accomplishments**

**Vision Statement:** Significant improvements to the quality of life in Cincinnati will be made by strategically addressing the specific needs of each neighborhood. By creating a diverse and affordable housing stock, reducing crime and blight, and providing economic development opportunities in neighborhoods, Cincinnati will be a more vibrant, livable city.

**Overall Development Goal:** Develop and support comprehensive efforts to revitalize neighborhoods while expanding economic opportunities and reducing blight. Development and support should strategically target 1) parts of the community that demonstrate the best chance for significant change, and 2) neighborhoods that have experienced an increase in the number of persons in poverty and vacant housing units and a decrease in the number of families and owner-occupied housing units.

**Housing**

**Housing Goal 1: Develop and maintain new and rehabilitated homeownership and rental units for a variety of income levels.**

Activities in support of this goal may include but are not limited to: homeownership, rental and mixed housing development and redevelopment; home repair grants; mixed-income, moderate, low and very low-income housing development; infrastructure improvements; housing maintenance services; tax/permit fee assistance; technical assistance and support for Community Development Corporations (CDCs) developing housing; mixed-use commercial / office / residential development; and project market studies.

**Housing Objective 1:** Promote sustained and increased homeownership through new construction and renovation of housing units. New and renovated units should be focused in neighborhoods with homeownership rates at or below the City's average homeownership rate where the existing inventory of housing stock and/or available land supports development and/or redevelopment for homeownership units.

Strategic Housing Initiatives CDBG  
Program (SHIP) Homeownership HOME

0

Funding for this project provides for targeted investments in housing projects throughout the City's neighborhoods. The program consolidates several existing programs and streamlines the funding process for applicants. The program includes three components: 1) Homeownership, which encourages the development of new or rehabilitated for-sale homeownership units. Funding is available for public right-of-way infrastructure improvements or direct subsidy to offset the cost of unit construction; 2) Rental Housing, which provides funding for rehabilitation or new construction of rental housing that is consistent with City policy. Priority will be given to rehabilitation or new construction of housing for senior citizens; and 3) Exceptional Projects, which provides funding for projects that do not meet the parameters of the two programs detailed above, including adaptive reuse projects, mixed use projects, condo conversions, and conversions from rental to homeownership. In 2007 this program provided funding for the construction of 22 units. Nine units were completed and 13 units remain under construction. However of the nine units that were completed none have been sold so this project cannot report any completions for 2008.

Housing Development HOME  
Round Homeowners

0

The Housing Development Round Homeowners program provides loans and grants to developers to upgrade existing housing and create new single unit and multi-unit housing for homebuyers and renters. The emphasis is on housing for low and moderate income households. This particular program has not been funded in recent years.

Homeowner Rehab Loans/ Lead	CDBG	1
Abatement Grants	HOME	

The Homeowner Rehab Loan program (HRLP) provides low-interest deferred loans and lead grants to low and moderate-income homeowners to correct building code violations; improve accessibility; enhance emergency conservation; and stabilize safe, sanitary housing citywide. This program was suspended in June 2008 due to lack of production by the agency administering the program.

Housing Maintenance Services	CDBG	1,299

Housing Maintenance Services provide grants for emergency and critical repairs to very low-income homeowners (below 50% of area median family income), most of whom are elderly. Emergency Services are limited to two emergencies per household per year, with a third emergency on a case-by-case basis. The maximum amount for an emergency repair is \$2,000. Critical repairs are those needed for the safety of the client and the integrity of the home, and may not exceed \$5,000. The City contracts with People Working Cooperatively (PWC) to provide these services.

The program was originally designed to pay or reimburse Habitat for Humanity for water tap fees, however now, sewer tap fees, building permit fees, sewer permit fees, water permit fees, remote meter fees, a developer fee and other approved fees related to the construction of eligible new single-family dwellings are reimbursed. The program has also been expanded, on a case-by-case basis, to include the following activities; demolition, infrastructure installation, construction costs for new and rehabilitated units, construction modifications that enable the units to blend with the existing neighborhood styles and context, and for homebuyer assistance. These units are intended for sale to and occupancy by low or moderate-income households. Work was substantially completed on 8 units this year but were not closed out in the HUD reporting system. They will be shown in the 2009 Annual Report.

Emergency Mortgage Assistance	CDBG	50

The Emergency Mortgage Assistance program provides up to three months of mortgage

payments for low-income City of Cincinnati homeowners facing foreclosure due to job loss, illness, death of the primary wage earner, or other circumstances beyond their control. Homeowners may receive this assistance to bring their loan current if they have reestablished an income stream to continue future mortgage payments. All clients in mortgage trouble receive in-depth foreclosure prevention counseling, a case management approach used to identify the service needs of clients and link them with other social service agencies.

Those receiving Emergency Mortgage Assistance grants/loans remain safely housed in their own homes, their children remain in school, and there is a reduction of the community need for family emergency shelter beds. Eligible households from 35-50 percent of Area Median Income (AMI) receive assistance in the form of grants. Households 50-80 percent of AMI receive no-interest-deferred loans, which are due when the home is sold or transferred.

This project provides for one-on-one counseling for up to 198 Cincinnati residents who are in danger of losing their homes to foreclosure. The goal is to save at least 69 homes from foreclosure. The counseling is provided by Working In Neighborhoods and several other HUD certified housing counseling agencies.

**Housing Objective 2:** Develop rental units for persons of low and very low-incomes in a manner that is consistent with City policy. Redevelopment should be focused in neighborhoods with significant residential populations, those that previously had significant residential populations but have experienced an increase in vacant units, or those within neighborhood business districts to create stronger mixed-use districts. Rental units are encouraged to be developed in conjunction with new homeownership units to create sustainable mixed-income communities.

Funding for this project provides for targeted investments in housing projects throughout the City's neighborhoods. The program consolidates several existing programs and streamlines the funding process for applicants. The program includes three components: 1) Homeownership, which encourages the development of new or rehabilitated for-sale homeownership units. Funding is available for public right-of-way infrastructure improvements or direct subsidy to offset the cost of unit construction; 2) Rental Housing, which provides funding for rehabilitation or new construction of rental housing that is consistent with City policy. Priority will be given to rehabilitation or new construction of housing for senior citizens; and 3) Exceptional Projects, which provides funding for projects that do not meet the parameters of the two programs detailed above, including adaptive reuse projects, mixed use projects, condo conversions, and conversions from rental to homeownership. No completions are reported for 2008.

The purpose of the Rental Rehabilitation Program is to increase the number of renovated rental housing units available to low-income families. Owners of housing units may receive up to 50% of the cost of rehabilitating the housing units in the form of deferred, forgivable loans as long as the housing unit remains available to low-income families for at least five years. A total of 42 units were reported as produced in 2008.

**Housing Goal 2: Provide supportive services to help moderate, low and very low-income persons find and maintain high-quality rental and homeownership units.**

Activities in support of this goal may include but are not limited to: fair housing services, legal assistance, housing counseling, code related relocation assistance, assistance in making the transition to homeownership, down payment assistance, and home maintenance training programs.

**Housing Objective 3:** Assist low- and moderate-income renters make the transition to homeownership and successfully retain ownership of their homes. The American Dream Downpayment Initiative (ADDI) was signed into law on December 16, 2003. ADDI funds are to be used for downpayment assistance towards the purchase of single family housing by low-income families who are first-time homebuyers. Eligible project costs include acquisition costs and related reasonable and necessary soft costs. The depressed economy and lack of lending by commercial banks has resulted in fewer families able to purchase homes, however the City is proud to report this program has not had any foreclosures since its inception. Work was substantially completed on a great number of units this year but were not closed out in the HUD reporting system. They will be shown in the 2009 Annual Report.

The City contracts with Housing Opportunities Made Equal (H.O.M.E.) to promote equal housing opportunities for all home seekers regardless of race, sex, color, nationality, religion, handicap, or familial status and to reduce unlawful discrimination in housing and increase integration throughout Cincinnati's neighborhoods. The program performs complaint intake, investigation, counseling, and files legal complaints against persons, firms, or organizations suspected of discrimination in housing. The program serves those classes of people protected by the Federal Fair Housing Act. In addition, the program provides education for consumers, housing industry professionals, police officers, and school staff, as well as research and monitoring of government sponsored or assisted housing programs. This program also provides a mediation program in conjunction with the Greater Cincinnati Northern Kentucky Apartment Owners Association.

### **Economic Development Goal 1: Promote commercial and industrial development and redevelopment.**

Activities in support of this goal may include but are not limited to: revitalization of neighborhood business districts (NBDs), office and retail development, land assembly, physical and technological infrastructure, site improvements, streetscape improvements, façade improvement programs, enterprise zone agreements, brownfields redevelopment, mixed-use development, and project market studies.

**Economic Development Objective 1:** Support the development of new and expanded retail and office uses through funding assistance and public improvements. Support should be targeted to redevelopment of existing commercial areas, focusing on designated NBDs and prioritizing those within designated Neighborhood Revitalization Strategy Areas (NRSAs). Where necessary, NBDs should be stabilized by reduction in NBD size through housing development in peripheral areas and/or on upper floors of commercial buildings.

This project seeks to enhance the business environment in the City's Neighborhood Business Districts (NBDs) by constructing streetscape public improvements, infrastructure improvements, property acquisition, or other development activities. This project will encourage retail development and provide improvements for CDBG-eligible neighborhoods.

The NBD Improvement Program is a competitive process where communities are required to submit applications for projects that meet the program guidelines by stabilizing, maintaining, and improving the NBD and overall community economic viability. Community organizations are encouraged to work collaboratively with business and property owners in the NBD to identify projects that have broad community support.

Community Councils and Neighborhood Business Associations must be informed of proposed funding applications and those applications that have community council support will be given preference in the evaluation process.

In order to qualify for funding, each program must meet the following criteria:

- Be located within a NBD
- Have private or other non-City financial investment
- Be a new or continuing project
- Have documentation verifying that the Neighborhood Business Association and Community Council were informed of the project.

During 2008, the following activities were completed through the Neighborhood Business District Improvement Program:

- Ludlow Ave Streetscape (20 businesses)
- Warsaw Ave Streetscape Phase I (5 businesses)
- Public Parking lot in the Northside Business District (9 businesses)
- Construction of Phase III of the East Walnut Hills streetscape (6 businesses)
- Completion of the Northside Façade Program (8 businesses)
- Street, streetscape and parking improvements Main/McMicken (3 businesses).
- Vine Street Parking lot (4 businesses)

--------------------------	------	--------------	---

The Cincinnati Small Business Loan Fund (CSBLF) is used to fill financing gaps for small to mid-sized businesses located in the City of Cincinnati that create or retain jobs for City residents or provide benefit to residents of low and moderate-income neighborhoods. In 2004 the CSBLF was converted to a revolving loan program, comprised of the Grow Cincinnati Fund and the Micro-City Loan Fund. Loan underwriting and servicing functions are administered by qualified third parties using Small Business Administration (SBA) criteria. The SBA underwriting standards allows a large portion of each loan to be sold on the secondary

market that in turn provides income that can be re-loaned to Cincinnati businesses. The leveraging of the City's initial investment will decrease the new funding needed to support the loan fund, thus making resources available for other needed services.

The Financial and Credit Union Services program provides operating support to SmartMoney Community Services. SmartMoney assists low-income residents, primarily in the West End and Over-the-Rhine neighborhoods, by providing a full range of banking services. These services include savings and checking accounts, individual development accounts (IDA), low-interest loans, direct deposit services, credit cards, and bus passes. For member convenience, an ATM machine is located in the Over-the-Rhine community. SmartMoney also provides free tax preparation through the SmartTax program.

The Economic Education portion of this program includes SmartDollars & Sense, a comprehensive workshop covering all topics in basic money management. Each workshop provides participants with tools and techniques to help manage spending, increase savings, and further align income with expenses. In addition, the workshop provides critical information on understanding credit. SmartChange Financial Counseling is a one-on-one counseling program structured to provide individual sessions to participants who are having problems balancing their income with their expenses. The five-session course offers insightful tips and information on how to cut back on unnecessary spending, increase savings, identify financial goals, and get out of debt. In addition, SmartChange participants have an opportunity to review their credit reports, and if needed, arrange repayment plans with creditors.

Neighborhood Capacity Building and CDBG	4
Technical Assistance	4

This project is designed to build and strengthen the capacity of community development corporations (CDCs) through three principal activities:

1. Supporting neighborhood-based CDCs by providing operating funds,
2. Providing technical assistance and training to CDCs, and
3. Providing administrative oversight of the programs.

CDCs assist the City in meeting its housing production and economic development goals by developing housing and economic development projects that have a highly visible presence in the neighborhoods. In 2003, the Department of Community Development and Planning joined the Alliance for Building Communities, a regional collaborative whose mission is to strengthen the capacity of CDCs engaged in comprehensive neighborhood revitalization by providing funds for CDC operating expenses such as salaries, office supplies, rent and utilities, contract services, as well as predevelopment (i.e., planning and engineering) activities. The City's membership in the Alliance leverages additional resources from member partners, providing a consolidated approach, and focuses on comprehensive community development.

In addition, this project will provide technical assistance to CDCs and other nonprofit organizations that pursue housing projects and other neighborhood development activities. Technical assistance is provided in the following areas:

- Asset Management – including, but not limited to, property management, compliance and reporting requirements, financial evaluation of projects, capital planning, financial management of the project, and marketing and/or contract administration;
- Fund-raising – generating funding partnerships and general fund-raising;
- Board Development – assisting Boards to better understand their roles and enable them to provide the organization with greater guidance and oversight;
- Other areas may be added on an as-needed basis.

In 2008, 4 CDC's were provided with operating support: Cincinnati Housing Partners, Over the Rhine Housing Network, Walnut Hills Redevelopment Foundation, and Working In Neighborhoods, were provided Technical Assistance Grants and Consulting. In addition 119 organizations and 175 people participated in a series of 3 trainings and 5 brownbag luncheon seminars throughout the year. (Note: Some organizations may have participated in more than one training.)

For 2009 a subrecipient has been selected to administer the Operating Support program in an effort to assist more CDC's and increase overall capacity of the organizations. The City will

also begin in 2009 to provide CHDO operating support using some of the allocation of HOME funds.

**Economic Development Objective 4:** Provide support for job-training and placement services and other employment opportunities for adults and adolescents. Services should target neighborhoods with rising levels of poverty and/or unemployment despite increasing educational and/or income levels.

Blueprint for Success is a pilot program, based on the Youth Build model, to assist ex-offenders and at-risk young adults ages 16-30 in obtaining their high school diploma (or GED) as well as marketable construction skills. Participants are recruited from the Empowerment Zone and other approved NRSA's and are trained in all aspects of residential construction through the rehabilitation of single-family houses. Rehabilitated houses are expected to be located in the Empowerment Zone or other NRSA's and will be affordable for sale to low- and moderate-income households (household incomes at or below 80% of area median income). The HOME funded housing rehabilitation contract, which enables the construction training part of the program, enabled the construction of two housing units in 2007 which were sold as affordable housing. No HOME funded units were completed in 2008. The program is operated by the Community Action Agency in partnership with other community stakeholder organizations. Because this is a new public service provided in approved Neighborhood Revitalization Strategy Areas by a Community Based Development Organization, the CDBG funded portion of this activity is exempt from the CDBG regulatory cap on public services.

CDBG

House-to-house inspections are conducted in targeted areas to provide comprehensive inspection of areas in transition. This activity encourages development and improves housing. Typically, housing inspection and zoning code enforcement is "complaint driven"; however, Concentrated Code Enforcement is proactive and can be effective in turning around areas in decline or can preserve the quality of neighborhoods. Beginning in 2007 focus areas were selected using a rational basis under the City Manager's Neighborhood Enhancement Program. Inspection resources are concentrated in a specified neighborhood to make a visible difference. The traditional model of complaint driven inspections produces inconsistent enforcement and a less dramatic impact on the neighborhood environment. Corrections achieved through Concentrated Code Enforcement involve repairing porches, windows, and siding; painting; and removal of dilapidated garages, fences and sheds, junk cars and weeds. Owners receiving orders are informed of funding availability through the Department of Community Development and Planning to correct violations. Areas are selected for Concentrated Code Enforcement in cooperation with neighborhood community groups and stakeholders. A total of 3,746 initial inspections were performed in 2008 .

The Barricade Program was initiated in 1993 for the purpose of securing vacant abandoned buildings against entry by trespassers. Vacant, open, and dilapidated buildings are attractive nuisances to children, vandals, drug dealers and arsonists. The Barricade Program enables the City to secure these open buildings using sturdy, painted wood barricades bolted in place. Condemned buildings are referred to the City's Hazard Abatement Program after normal code enforcement activities have been exhausted. Monthly "Public Nuisance Hearings" are conducted to determine if abandoned buildings are such a nuisance that hazard abatement by the City is required. Criteria such as historic value, community support, degree of fire and safety hazard, depreciating property values, and criminal activity associated with the buildings are considered. Removal or repair of blighted buildings leads to stabilization and increased community safety, stable property values, and livability of neighborhoods. In 2008 a total of 97 structures were demolished and 632 were barricaded under this program.

Neighborhood Gardens

CDBG

40,000

The Neighborhood Gardens Program transforms vacant and blighted lots throughout the City into attractive, productive uses as Community Gardens. The program assists residents in low and moderate income neighborhoods in developing these vacant lots into gardens, which can

accommodate 10-30 families each. Participants are able to supplement tight food budgets with fresh grown produce, clean up and maintain their neighborhoods, as well as have access to educational and recreational opportunities. These benefits are especially true in inner-city neighborhoods where green space is severely limited.

The Youth Education Program provides fun outdoor backyard experiences that encourage exploration and discovery of Nature, makes a connection to where our food comes from, and fosters an appreciation and respect for nature.

Accomplishments in 2008 included:

- New gardens were established, which listed below:
  - ✓ Peaslee Neighborhood Center's Children's GardenIn development with construction scheduled for 2009
  - Pleasant Street Community Garden
- Revitalized the following existing gardens:
  - ✓ Julie Hanser Community Garden, Installation of a new gate and expanded fencing
  - ✓ Eco Market Garden/Youth Program, Site renovation - Phase II Installation of permanent water source, continued site development including cold frames and shade cloth system
  - ✓ Madisonville Community Garden, Installation of a rain water catchment system
  - ✓ Over the-Rhine People's Community Garden, Site renovation – phase II Rain water catchment system, garden bed expansion and field trials of green manure crops
  - ✓ Race Street Children's Garden, Installation of a rain water catchment system, roof on deck and continued soil revitalization – phase I
- Urban Orchard Program – phase II, Fruit Trees & Food Bearing Woody Perennials planted in following gardens:
  - Over the-Rhine People's Community Garden
  - East End Veteran's Memorial Garden
  - CCAT Garden (Center for Chemical Addictions Treatment)
  - Race Street Children's Garden
- Green Manure Program
  - An educational pilot program – over a dozen gardeners participated in the pilot project. Winter Rye is used as a winter green manure crop for gardens and on farm fields to prevent soil erosion, aerate the soil, and to add nitrogen and organic matter to the soil. Trials conducted in nine gardens.
- Summer Sprouts
  - Summer Sprouts programming takes place in 6 gardens
  - A free experiential program for neighborhood children 3 - 13 years old
  - Partnered with over 5 youth agencies to offer programming
  - In 2008 served 287 children, resulting in 1692 contact hours

- **Schoolyard Community Gardening Training**

The Schoolyard Community Gardening Training is a two hour program designed for Community Learning Center staff, CPS teachers and volunteers to provide practical training in creating youth-centered pedagogical gardens for growing food, beautification and/or natural habitats. All classes are free and open to individuals interested in establishing or working in a school-based Community Learning Center garden program. Pilot training program presented at Pleasant Ridge School, Community Learning Center

- **Community Garden Development Training**

The Community Garden Development Training (CGDT), twelve 2 ½ hour classes, offers a unique and successful set of tools to help neighbors of all ages come together to create community gardens. The heart of CGDT is the peer-centered curriculum that allows participants to share their talents and utilize community resources to develop and implement neighborhood gardening projects.

- **Partnerships with Community Service Organizations**

Volunteers from community service organizations and schools worked in the community gardens. High school students participating in the Youth Works Summer Community Service Program and Lakota High School volunteered. In addition veterans from the Joseph House, Community Service Program volunteered at the garden as well as participants from Hamilton County Department of Probation's Diversion Program. In 2008 these volunteers worked 900 hours helping to maintain Over-the-Rhine and West End gardens and to clean up the surrounding areas.

- **Youth Works**

Youth Works, a faith-based ministry program designed to meet the needs and capabilities of young people, ages 12 - 19, with an emphasis on servant leadership and community service. Groups of 4 - 6 volunteers worked twice a week with Corina Bullock, CGC Youth Education Coordinator, and me over a period of seven weeks on renewal of these gardens - creating welcoming places for adults and children to garden, learn and play.

32 volunteers worked 340 hours in Over-the-Rhine and Walnut Hills

This project creates a greenway system within the riverine-riparian corridor of the Mill Creek. The Mill Creek is one of the most endangered urban rivers in North America. The small river flows through the heart of Cincinnati along economically depressed inner-city neighborhoods. This project provides planning and coordination services for greenway projects, volunteer recruitment for cleanup, and environment enhancing projects. The project's goals are to create innovative and sustainable greenway trails, parks, and other amenities within the riparian corridor of the Mill Creek and help revitalize neighborhoods located near the river's floodplain.

This project provides funding for lead inspections of residences occupied by children who have been identified as having an elevated blood lead level (EBL). The Cincinnati Health Department has operated an environmental program to investigate the housing of lead poisoned children since 1972.

Housing Stock : Cincinnati has an aging and deteriorated housing stock. The 2000 Census indicates the City of Cincinnati has over 147,991 dwelling units of which 90,336 (61%) dwelling units are rental units and 57,655 (39 %) are owner occupied. Of Cincinnati's 147,991 dwelling units, 92.96% (137,558) were built prior to 1979 (between 1940 and 1979), and 58,315 dwellings (39.4%) were built before 1940.

Race and Income: According to the U.S. Census American Community Survey 2007, the total population of Cincinnati was 50.2% Caucasian; 44.7% African-American, 2.8% Hispanic and 2.3% other.

Many of the units inspected are occupied by low-income families and are in poor physical condition. The levels of lead paint are very high in the City's housing stock. In 2008 the program received 122 children referred for investigations into the cause of their lead poisoning. The State of Ohio has lowered the blood lead criteria level, which requires intervention to 10ug/dl of blood.

CLPPP's Early Intervention Program: The City of Cincinnati's Childhood Lead Poisoning Prevention Program (CLPPP) was first in the nation to initiate the early intervention program addressing referrals of children with blood lead levels between 5 to 9 ug/dL. They are provided with educational information on the effects of lead poisoning and provided with mops and buckets for clean-up of lead dust in their homes. Of the 302 families with children (5-9 ug/dL), 65 families did not respond after 3 repeated visits to the home; 26 families were not home for a scheduled visit; 23 families declined the services.

In addition, the program is being modified to respond to complaints from households where a child may be exposed to lead but has not yet been diagnosed as having an elevated blood lead level. This has resulted in the need for an additional inspector to conduct inspections.

- Central Clinic Mental Health Access Point
- Greater Cincinnati Oral Health Council
- North Fairmount Community Center
- YWCA of Greater Cincinnati, Inc.
- Seven Hill Neighborhood House
- Starfire Council of Greater Cincinnati

**Quality of Life Objective 4:** Provide assistance to people and community groups aggressively working to improve the safety and perception of safety in their neighborhoods through Block Watch, Citizens on Patrol, Community Problem Oriented Policing (CPOP), and other crime reduction activities. This project provides funding for increased law enforcement activity in Over-the-Rhine to replace the HUD Drug Elimination Grant program. Off-duty police officers work in conjunction with on-duty officers to respond to drug complaints from area residents. In 2008 officers enabled 1,069 arrests, served 712 warrants, and recovered 16 weapons. Confiscations included \$9,388 in cash, and multiple types of drugs and drug/paraphernalia. The street value of confiscated items totals \$170,440.90.

## **Homeless Housing**

Emergency Shelter Grant (ESG) funds support the Consolidated Plan homeless objectives. Grant funding supports emergency shelter operations subject to a limitation of 10% for staff costs. Funds may also be used to renovate buildings for use as homeless shelters.

**Homeless Housing Objective 1:** Support operations and essential services of current shelters and transitional housing providers at locations convenient and accessible to the homeless population.

## Appendix C

### 2008 HOPWA Specific CAPER

# **Housing Opportunities for Persons With AIDS (HOPWA) Program**

## **Consolidated Annual Performance and Evaluation Report (CAPER) Measuring Performance Outcomes**

---

**OMB Number 2506-0133 (Expiration Date: 12/31/2010)**

---

The HOPWA CAPER report for formula grantees provides annual information on program accomplishments in meeting the program's performance outcome measure: maintain housing stability; improve access to care; and reduce the risk of homelessness for low-income persons and their families living with HIV/AIDS. This information is also covered under the Consolidated Plan Management Process (CPMP) report and includes Narrative Responses and Performance Charts required under the Consolidated Planning Regulations. The public reporting burden for the collection of information is estimated to average 45 hours per manual response, or less if an automated data collection and retrieval system is in use, along with 68 hours for record keeping, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Grantees are required to report on the activities undertaken only, thus there may be components of these reporting requirements that may not be applicable. This agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless that collection displays a valid OMB control number.

**Overview.** The Consolidated Annual Performance and Evaluation Report (CAPER) provides annual performance reporting on client outputs and outcomes that enables an assessment of grantee performance in achieving the housing stability outcome measure. The CAPER, in conjunction with the Integrated Disbursement Information System (IDIS), fulfills statutory and regulatory program reporting requirements and provides the grantee and HUD with the necessary information to assess the overall program performance and accomplishments against planned goals and objectives

HOPWA formula grantees are required to submit a CAPER, and complete annual performance information for all activities undertaken during each program year in the IDIS, demonstrating coordination with other Consolidated Plan resources. HUD uses the CAPER and IDIS data to obtain essential information on grant activities, project sponsors, housing sites, units and households, and beneficiaries (which includes racial and ethnic data on program participants). The Consolidated Plan Management Process tool (CPMP) provides an optional tool to integrate the reporting of HOPWA specific activities with other planning and reporting on Consolidated Plan activities.

The revisions contained within this edition are designed to accomplish the following: (1) provide for an assessment of unmet need; (2) streamline reporting sources and uses of leveraged resources; (3) differentiate client outcomes for temporary/short-term and permanent facility-based assistance; (4) clarify indicators for short-term efforts and reducing the risk of homelessness; and (5) clarify indicators for Access to Care and Support for this special needs population. In addition, grantees are requested to comply with the Federal Funding Accountability and Transparency Act 2006 (Public Law 109-282) which requires federal grant recipients to provide general information for all entities (including subrecipients) receiving \$25,000+ in federal funds.

3. Access to Care and Support: Housing Assistance with Supportive Services

### **PART 5: Worksheet - Determining Housing Stability Outcomes**

### **PART 6: Certification of Continued Use for HOPWA Facility-Based Stewardship Units (Only)**

**Continued Use Periods.** Grantees that use HOPWA funds for new construction, acquisition, or substantial rehabilitation are required to operate their facilities for ten years for HOPWA-eligible beneficiaries. For the years in which grantees do not receive and expend HOPWA funding for these activities, the grantee must submit an Annual Certification of Continued Project Operation throughout the required use periods. This certification is included in Part 5 in CAPER.

**Final Assembly of Report.** After the entire report is assembled, please number each page sequentially.

**Filing Requirements.** Within 90 days of the completion of each program year, grantees must submit their completed CAPER to the CPD Director in the grantee's State or Local HUD Field Office, and to the HOPWA Program Office: Office of HIV/AIDS Housing, Room 7212, U.S. Department of Housing and Urban Development, 451 Seventh Street, SW, Washington, D.C. 20410.

**Definitions: Facility-Based Housing Assistance:** All HOPWA housing expenditures which provide support to facilities, including community residences, SRO dwellings, short-term or transitional facilities, project-

based units, master leased units, scattered site units leased by the organization, and other housing facilities approved by HUD.

**Grassroots Organization:** An organization headquartered in the local community where it provides services; has a social services budget of \$300,000 or less annually; and six or fewer full-time equivalent employees. Local affiliates of national or larger organizations are not considered "grassroots."

**Housing Assistance Total:** The non-duplicated number of households receiving housing subsidies and residing in units of facilities that were dedicated to persons living with HIV/AIDS and their families that were supported with HOPWA or leveraged funds during this operating year.

**In-kind Leveraged Resources:** These involve additional types of support provided to assist HOPWA beneficiaries such as volunteer services, materials, use of equipment and building space. The actual value of the support can be the contribution of professional services, based on customary rates for this specialized support, or actual costs contributed from other leveraged resources. In determining a rate for the contribution of volunteer time and services, use the rate established in HUD notices, such as the rate of ten dollars per hour. The value of any donated material, equipment, building, or lease should be based on the fair market value at time of donation. Related documentation can be from recent bills of sales, advertised prices, appraisals, or other information for comparable property similarly situated.

**Leveraged Funds:** The amount of funds expended during the operating year from non-HOPWA federal, state, local, and private sources by grantees or sponsors in dedicating assistance to this client population. Leveraged funds or other assistance used directly in HOPWA program delivery.

**Output:** The number of units of housing or households that receive HOPWA housing assistance during the operating year.

**Outcome:** The HOPWA assisted households who have been enabled to establish or better maintain a stable living environment in housing that is safe, decent, and sanitary, (per the regulations at 24 CFR 574.310(b)) and to reduce the risks of homelessness, and improve access to HIV treatment and other health care and support. The goal that eighty percent of HOPWA clients will maintain housing stability, avoid homelessness, and access care by 2011.

**Permanent Housing Placement:** A supportive housing service that helps establish the household in the housing unit, including reasonable costs for security deposits not to exceed two months of rental costs).

**Program Income:** Gross income directly generated from the use of HOPWA funds, including repayments. See grant administration requirements on program income for state and local governments at 24 CFR 85.25, or for non-profits at 24 CFR 84.24.

**Short-Term Rent, Mortgage and Utility Payments (STRMU):** Subsidy or payments subject to the 21-week limited time period to prevent the homelessness of a household (e.g., HOPWA short-term rent, mortgage and utility payments).

**Stewardship Units:** Units developed, where HOPWA funds were used for acquisition, new construction and rehabilitation, but no longer receive operating subsidies. Report information for the units subject to the three-year use agreement if rehabilitation is non-substantial, and those subject to the ten-year use agreement if rehabilitation is substantial.

**Tenant-Based Rental Assistance: (TBRA):** An on-going rental housing subsidy for units leased by the client, where the amount is determined based in part on household income and rent costs. Project-based costs are considered facility-based expenditures.

**Total by Type of Housing Assistance/Services:** The non-duplicated households assisted in units by type of housing assistance dedicated to persons living with HIV/AIDS and their families or services provided that were supported with HOPWA and leveraged funds during the operating year

## Part 1: Grantee Executive Summary

As applicable, complete the charts below followed by the submission of a written narrative to questions A through C, and the completion of Chart D. Chart 1 requests general grantee information and Chart 2 is to be completed for each organization selected or designated as a project sponsor, as defined by CFR 574.3. In Chart 3, indicate each subrecipient organization with a contract/agreement of \$25,000 or greater that assists grantees or project sponsors carrying out their activities. Agreements include: grants, subgrants, loans, awards, cooperative agreements, and other forms of financial assistance; and contracts, subcontracts, purchase orders, task orders, and delivery orders. These elements address requirements in the Federal Funding and Accountability and Transparency Act of 2006 (Public Law 109-282).

### 3. Subrecipient Information

In Chart 3, provide the following information for each subrecipient with a contract/agreement of \$25,000 or greater that assist the grantee or project sponsors to carry out their administrative or service delivery functions. Agreements include: grants, subgrants, loans, awards, cooperative agreements, and other forms of financial assistance; and contracts, subcontracts, purchase orders, task orders, and delivery orders. (Organizations listed may have contracts with project sponsors or other organizations beside the grantee.) These elements address requirements in the Federal Funding and Accountability and Transparency Act of 2006 (Public Law 109-282).

### **A. Grantee and Community Overview**

Provide a one to three page narrative summarizing major achievements and highlights that were proposed and completed during the program year. Include a brief description of the grant organization, area of service, the name(s) of the program contact(s), and an overview of the range/type of housing activities provided. This overview may be used for public information, including posting on HUD's website. *Note: Text fields are expandable.*

#### **Overview of Project Sponsors and Activities**

In 2008, four sponsor agencies received HOPWA funds through the City of Cincinnati:

- The Center for Respite Care received HOPWA funds for the first time in 2008. They provide shelter combined with medical care to homeless persons who are too sick for a traditional shelter, and need stabilization before moving to transitional or permanent housing. Clients have access to medical care in addition to a case manager who assists in obtaining stable housing upon exit. HOPWA funds are used for supportive services for persons with HIV/AIDS in their shelter.
- Caracole, Inc. provides transitional facility-based housing for persons with HIV/AIDS at two facilities: Caracole House, a congregate facility for single adults, and the Recovery Community, a congregate residence specifically designed for persons dually diagnosed with HIV/AIDS and substance abuse. They also provide HOPWA-funded supportive services for clients in their Shelter Plus Care program.
- Stop AIDS (formerly AIDS Volunteers of Cincinnati) provides STRMU assistance and supportive services to persons with HIV/AIDS throughout the Greater Cincinnati HIV/Case Management Network.
- Northern Kentucky Independent District Health Department (NKIDHD) provides STRMU assistance to persons with HIV/AIDS in the seven Kentucky counties of the EMSA. NKIDHD also was awarded funding to provide short-term assistance to those few persons in the Indiana counties within the EMSA. This agency uses other funding to provide services to clients assisted with HOPWA housing assistance.

These four local agencies play major roles in the provision of case management and housing services to the population of persons with HIV/AIDS. Other members of the case management network include the Infectious Diseases Clinic, the Cincinnati Health Network, and The Greater Cincinnati AIDS Consortium, a regional clearinghouse for HIV/AIDS information and services, continues to play a key role in helping coordinate efforts to combat HIV/AIDS across the region.

The sponsor agencies proposed to serve 230 households with housing assistance, and actually served 217 households, representing 299 persons. (45 of the 217 were served at a congregate living facility.) Although not quite as many households were served with STRMU as projected, it is notable that at both Stop AIDS and NKIDHD the average household size assisted with STRMU increased; therefore the overall number of persons served was higher than projected.

### **B. Annual Performance under the Action Plan**

Provide a narrative addressing each of the following four items:

**1. Outputs Reported.** Describe significant accomplishments or challenges in achieving the number of housing units supported and the number households assisted with HOPWA funds during this operating year compared to plans for this assistance, as approved in the Consolidated Plan/Action Plan. Describe how HOPWA funds were distributed during your program year among different categories of housing and geographic areas to address needs throughout the grant service area, consistent with approved plans.

**2. Outcomes Assessed.** Assess program goals against actual client outcomes for achieving housing stability, reducing risks of homelessness, and improving access to care. If current year results are lower than the national program targets (80 percent of HOPWA clients maintain housing stability, avoid homelessness and access care), please describe the steps being taken to achieve the national outcome goal in next operating year.

**3. Coordination.** Report on program coordination with other mainstream housing and supportive services resources, including the use of committed leveraging from other public and private sources that helped to address needs for eligible persons identified in the Consolidated Plan/Strategic Plan.

**4. Technical Assistance.** Describe any program technical assistance needs and how they would benefit program beneficiaries.

### **Outputs Reported & Outcomes Assessed**

HOPWA funds were used in 2008 to provide: short term rent/mortgage/utility (STRMU) assistance to 172 households, an operating subsidy for congregate living facilities that served 45 individuals, and supportive services for 322 persons receiving HOPWA and non-HOPWA housing assistance. Of those receiving STRMU, 52% had an outcome of “stable/permanent housing”, 38% had an outcome of “temporarily stable, with reduced risk of homelessness”, 8% were at a “reduced risk of homelessness” and none had an “unstable arrangement” outcome. (The remaining 2% represents two STRMU recipients who passed away during the program year.) Of the 33 individuals exiting the congregate living facilities, 48% went on to permanent housing, 33% went on to other temporary housing, and only 19% returned to unstable arrangements (i.e. shelter, jail/prison, or unknown).

This housing stabilization translates into other benefits as well. Of the 217 people who received HOPWA housing assistance (either STRMU or at the congregate facilities), about 86% accessed or maintained qualification for sources of income, and 90% accessed medical insurance/assistance.

### **Sponsor Selection and Grant Management Oversight**

These project sponsors were selected for 2008 by a HOPWA Advisory Committee consisting of government officials, members of the medical community, non-profit organization representatives and HIV/AIDS service consumers/advocates from Indiana, Kentucky, and Ohio, and representatives of the Greater Cincinnati AIDS Consortium (GCAC). The sponsors’ applications were solicited through a regional request for proposals process electronically sent to the entire GCAC mailing list.

The City of Cincinnati contracts with The Cincinnati/Hamilton County Continuum of Care for the Homeless, Inc. (CoC) to provide oversight of grant management of the project sponsor activities. Services provided by CoC include:

- Application – release, collection
- Allocation Process – convene and facilitate HOPWA Advisory Committee to determine recipient agencies/funding levels
- Report on Allocation Process results – following requirements of the DCAB and city budget process
- Scope of services – development in conjunction with agencies/review/approve
- Contract – development and facilitation of city and agency execution
- Monthly draw – review/approval/processing
- Monitoring – monitor contract compliance and work with HUD Field Office staff during any HUD monitoring visits.
- Reporting – request Annual Progress Report and/or IDIS completion data from providers
- Reporting – preparation of the CAPER and/or other reports required by the Department of Community Development and Planning, Finance, or the City Manager.

### **Local Jurisdiction and Estimation of Need**

The Cincinnati EMSA includes 15 counties: five in Ohio, seven in Kentucky, and three in Indiana. The estimate of each county’s need is determined by assessing the cumulative number of HIV/AIDS cases as a percentage of the total. This estimation of need is then applied as a guide for allocating funds. Since there is no Indiana sponsor agency, the Indiana portion is typically allocated to the Kentucky or Ohio agency that has committed to serving Indiana clients.

### **Community Planning Overview**

In order to fully examine the needs of the community for HIV/AIDS housing, two studies have been conducted by consultants on behalf of the City of Cincinnati since it became the EMSA grantee in 1998. The first, conducted by Michelle Budzek (President of The Partnership Center, formerly the facilitator of the local HOPWA process until the contract was transferred) was to design a funding distribution and allocation process for HOPWA funds. This project examined the pro-rata need for each jurisdiction, made preliminary gaps analyses, developed a project application, and convened the above mentioned HOPWA Advisory Committee. The second project was the Cincinnati EMSA Needs Assessment, conducted by Steven Howe, Ph.D. This comprehensive assessment included key informant interviews, secondary data collection, provider site visits, and focus groups. The results were presented at a public forum, published, and made available regionally. The determinations of the assessment were used as the basis for allocating the most recent round of HOPWA funding. On-going evaluation of all services and housing for HIV/AIDS is provided by the Greater Cincinnati AIDS Consortium in cooperation with Ryan White funding, Prevention planning and HOPWA.

### **Other Resources**

Each HOPWA sponsor agency brings leveraged resources to the table, and conversely, HOPWA funding provides valuable leverage to obtain other resources. For example, Caracole, Inc. provides Shelter Plus Care tenant-based rental subsidies to persons and families with HIV/AIDS, and HOPWA funds help provide the supportive services, the “plus care” piece, that is required by Shelter Plus Care Regulations. In total, HOPWA funds are leveraged by over 3 million dollars at the four sponsor agencies in the EMSA.

### **Coordination/Collaborative Efforts**

The HOPWA Advisory Committee membership provides diverse perspectives on HIV/AIDS issues and represents the collaborative effort of the community. Two of its members serve on the Greater Cincinnati Ryan White Committee, three represent HOPWA planning departments in each of the three states, three of the service provider agencies represented are also active participants in the Continuum of Care for the Homeless process, and two committee members represent advocate groups. Additionally some of the aforementioned are themselves consumers. Thus perspectives and coordination on HIV/AIDS drug programs, Ryan White service programs, care programs and homeless programs are represented within the Advisory Committee and are coordinated on a year-round basis

### **C. Barriers and Trends Overview**

Provide a narrative addressing items 1 through 3. Explain how barriers and trends affected your program's ability to achieve the objectives and outcomes discussed in the previous section.

1. Describe any barriers (including regulatory and non-regulatory) encountered, actions taken in response to barriers, and recommendations for program improvement. Provide an explanation for each barrier selected.

<input checked="" type="checkbox"/> HOPWA/HUD Regulations	<input type="checkbox"/> Planning	<input checked="" type="checkbox"/> Housing Availability	<input type="checkbox"/> Rent Determination and Fair Market Rents
<input type="checkbox"/> Discrimination/Confidentiality	<input checked="" type="checkbox"/> Multiple Diagnoses	<input type="checkbox"/> Eligibility	<input type="checkbox"/> Technical Assistance or Training
<input type="checkbox"/> Supportive Services	<input type="checkbox"/> Credit History	<input type="checkbox"/> Rental History	<input type="checkbox"/> Criminal Justice History
<input type="checkbox"/> Housing Affordability	<input type="checkbox"/> Other, please explain further		

2. Describe any trends in the community that may affect the way in which the needs of persons living with HIV/AIDS are being addressed, and provide any other information important to the future provision of services to this population.

3. Identify any evaluations, studies, or other assessments of the HOPWA program that are available to the public.

#### **Barriers and Trends Within the Community**

Barriers Encountered: Some of the barriers continue to be the lack of affordable housing, increasing cost of utilities, long waiting lists for Section 8, and finding housing for persons with criminal records (the last two items in regard only to moving people out of emergency and transitional housing rather than STRMU). The community continues to increase the stock of supportive permanent and transitional housing for homeless persons, both through HUD's Supportive Housing Program and Shelter Plus Care, thus providing more housing opportunities for those disabled and displaced by HIV/AIDS.

HOPWA funded agencies continue to work closely with all HIV/AIDS service and housing providers to coordinate services as well as make sure available funds are accessible to those in need. In 2008 a non-HOPWA funded agency, the Cincinnati Health Network (CHN), hired an HIV Outreach Worker. This person works on Cincinnati's mobile medical van (operated by CHN) for homeless and low-income persons, and specializes in the needs of persons with HIV/AIDS in terms of testing and connecting persons to services/housing as needed.

Expected trends/issues in meeting the needs of persons with HIV/AIDS include:

- the continued shifting of the population demographics, away from predominately white gay men to increasingly women and persons of color.
- the overall impact of the cost of drugs – causing a choice by Ryan White in many cases to choose between drugs or services.

#### **D. Unmet Housing Needs: An Assessment of Unmet Housing Needs**

In Chart 1, provide an assessment of the number of HOPWA-eligible households that require housing assistance but are not currently served by HOPWA in this service area.

In Line 1, report the total unmet need of the geographical service area, as reported in *Unmet Needs for Persons with HIV/AIDS*, Table 1B of the Consolidated or Annual Plan(s), or as reported under HOPWA worksheet in the Needs Workbook of the Consolidated Planning Management Process (CPMP) tool. *Note: Report most current data available, through Consolidated or Annual Plan(s), and account for local housing issues, or changes in HIV/AIDS cases, by using combination of one or more of the sources in Chart 2.*

In Rows a through c, enter the number of HOPWA-eligible households by type of housing assistance whose housing needs are not met. For an approximate breakdown of overall unmet need by type of housing assistance refer to the Consolidated or Annual Plan (s), CPMP tool or local distribution of funds.

#### **1. Assessment of Unmet Need for HOPWA-eligible Households**

1. Total number of households that have unmet housing needs	= 230
<b>From Item 1, identify the number of households with unmet housing needs by type of housing assistance</b>	
a. Tenant-Based Rental Assistance (TBRA)	= 0
b. Short-Term Rent, Mortgage and Utility payments (STRMU)	= 190
c. Housing Facilities, such as community residences, SRO dwellings, other housing facilities	= 40

#### **2. Recommended Data Sources for Assessing Unmet Need (check all sources used)**

<input checked="" type="checkbox"/> = Data as reported in the area Consolidated Plan, e.g. Table 1B, CPMP charts, and related narratives

### PART 3: Accomplishment Data - Planned Goal and Actual Outputs

In Chart 1, enter performance information (goals and actual outputs) for all activities undertaken during the operating year supported with HOPWA funds. Performance is measured by the number of households and units of housing that were supported with HOPWA or other federal, state, local, or private funds for the purposes of providing housing assistance and support to persons living with HIV/AIDS and their families. *Note: The total households assisted with HOPWA funds and reported in PART 3 of the CAPER should be the same as reported in the annual year-end IDIS data, and goals reported should be consistent with the Annual Plan information. Any discrepancies or deviations should be explained in the narrative section of PART 1.*

#### Part 4: Summary of Performance Outcomes

HOPWA Long-term Performance Objective: *Eighty percent of HOPWA clients will maintain housing stability, avoid homelessness, and access care each year through 2011.*

#### Section 1. Housing Stability: Assessment of Client Outcomes on Maintaining Housing Stability (Permanent Housing and Related Facilities)

In Column 1, report the total number of eligible households that received HOPWA housing assistance, by type. In Column 2, enter the number of households continuing to access each type of housing assistance, the following year. In Column 3, report the housing status of all households that exited the program. Columns 2 (Number of Households Continuing) and 3 (Exited Households) summed will equal the total households reported in Column 1. *Note: Refer to the housing stability codes that appear in Part 5: Worksheet - Determining Housing Stability Outcomes.*

## Section 2. Prevention of Homelessness: Assessment of Client Outcomes on Reduced Risks of Homelessness (Short-Term Housing Assistance)

Report the total number of households that received STRMU assistance in Column 1. In Column 2, identify the result of the housing assessment made at time of assistance, or updated in the operating year. (Column 3 provides a description of housing outcomes; therefore, data is not required.) In Row 1a, enter the total number of households served in the prior operating year that received STRMU assistance this year. In Row 1b, enter the total number of households that received STRMU Assistance in the 2 prior operating years that received STRMU assistance this year. *Note: The sum of Column 2 should equal the number of households reported in Column 1.*

### Assessment of Households receiving STRMU Assistance

1b. Total number of those households that received STRMU assistance in the two (2 years ago) prior operating years, that also received STRMU assistance in the current operating year.			= 69

### Section 3. HOPWA Outcomes on Access to Care and Support

#### 1A. Status of Households Accessing Care and Support by Project Sponsors delivering HOPWA Housing Assistance/Housing Placement/Case Management

Use Table 1 A for project sponsors that provide HOPWA housing assistance/housing placement with or without case management services. In Table 1A, identify the number of client households receiving any type of HOPWA housing assistance that demonstrated improved access or maintained connections to care and support within the program year by: having a housing plan; having contact with a case manager/benefits counselor; visiting a primary health care provider; accessing medical insurance/assistance; and accessing or qualifying for income benefits. *Note: For information on types and sources of income and medical insurance/assistance, refer to Charts 1C and 1D.*

## **PART 5: Worksheet - Determining Housing Stability Outcomes**

1. This chart is designed to assess program results based on the information reported in Part 4.

<b>Permanent Housing Assistance</b>	<b>Stable Housing</b> (# of households remaining in program plus 3+4+5+6=#)	<b>Temporary Housing</b> (2)	<b>Unstable Arrangements</b> (1+7+8=#)	<b>Life Event</b> (9)

Short-Term Rent, Mortgage, and Utility Assistance (STRMU)	90	79	0	3
<b>Total HOPWA Housing Assistance</b>	90	79	0	3

### **Background on HOPWA Housing Stability Codes**

#### **Stable Permanent Housing/Ongoing Participation**

3 = Private Housing in the private rental or home ownership market (without known subsidy, including permanent placement with families or other self sufficient arrangements) with reasonable expectation that additional support is not needed.

4 = Other HOPWA-funded housing assistance (not STRMU), e.g. TBRA or Facility-Based Assistance.

5 = Other subsidized house or apartment (non-HOPWA sources, e.g., Section 8, HOME, public housing).

6 = Institutional setting with greater support and continued residence expected (e.g., residential or long-term care facility).

#### **Temporary Housing**

2 = Temporary housing - moved in with family/friends or other short-term arrangement, such as Ryan White subsidy, transitional housing for homeless, or temporary placement in institution (e.g., hospital, psychiatric hospital or other psychiatric facility, substance abuse treatment facility or detox center).

#### **Unstable Arrangements**

1 = Emergency shelter or no housing destination such as places not meant for habitation (e.g., a vehicle, an abandoned building, bus/train/subway station, or anywhere outside).

7 = Jail /prison.

8 = Disconnected or disappeared from project support, unknown destination or no assessments of housing needs were undertaken.

#### **Life Event**

9 = Death, i.e., remained in housing until death. This characteristic is not factored into the housing stability equation.

**Tenant-based Rental Assistance:** Stable Housing is the sum of the number of households that (i) remain in the housing and (ii) those that left the assistance as reported under: 3, 4, 5, and 6. Temporary Housing is the number of households that accessed assistance, and left their current housing for a non-permanent housing arrangement, as reported under item: 2. Unstable Situations is the sum of numbers reported under items: 1, 7, and 8.

**Permanent Facility-Based Housing Assistance:** Stable Housing is the sum of the number of households that (i) remain in the housing and (ii) those that left the assistance as shown as items: 3, 4, 5, and 6. Temporary Housing is the number of households that accessed assistance, and left their current housing for a non-permanent housing arrangement, as reported under item 2. Unstable Situations is the sum of numbers reported under items: 1, 7, and 8.

**Transitional/Short-Term Facility-Based Housing Assistance:** Stable Housing is the sum of the number of households that (i) continue in the residences (ii) those that left the assistance as shown as items: 3, 4, 5, and 6. Other Temporary Housing is the number of households that accessed assistance, and left their current housing for a non-permanent housing arrangement, as reported under item 2. Unstable Situations is the sum of numbers reported under items: 1, 7, and 8.

**Tenure Assessment.** A baseline of households in transitional/short-term facilities for assessment purposes, indicate the number of households whose tenure exceeded 24 months.

**STRMU Assistance:** Stable Housing is the sum of the number of households that accessed assistance for some portion of the permitted 21-week period and there is reasonable expectation that additional support is not needed in order to maintain permanent housing living situation (as this is a time-limited form of housing support) as reported under housing status: Maintain Private Housing with subsidy; Other Private with Subsidy; Other HOPWA support; Other Housing Subsidy; and Institution. Temporarily Stable, with Reduced Risk of Homelessness is the sum of the number of households that accessed assistance for some portion of the permitted 21-week period or left their current housing arrangement for a transitional facility or other temporary/non-permanent housing arrangement and there is reasonable expectation additional support will be needed to maintain housing arrangements in the next year, as reported under housing status: Likely to maintain current housing arrangements, with additional STRMU assistance; Transitional Facilities/Short-term; and Temporary/Non-Permanent Housing arrangements. Unstable Situation is the sum of number of households reported under housing status: Emergency Shelter; Jail/Prison; and Disconnected.

**End of PART 5**

## **PART 6: Certification of Continued Usage for HOPWA Facility-Based Stewardship Units (ONLY)**

Grantees that use HOPWA funding for new construction, acquisition, or substantial rehabilitation are required to operate their facilities for HOPWA eligible individuals for at least ten years. If non-substantial rehabilitation funds were used they are required to operate for at least three years. Stewardship begins once the facility is put into operation. This Annual Certification of Continued HOPWA Project Operations is to be used in place of other sections of the APR, in the case that no additional HOPWA funds were expended in this operating year at this facility that had been acquired, rehabilitated or constructed and developed in part with HOPWA funds.

Public reporting burden for this collection of information is estimated to average 2.5 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless that collection displays a valid OMB control number.

The HOME statute imposes a significant number of data collection and reporting requirements. This includes information on assisted properties, on the owners or tenants of the properties, and on other programmatic areas. The information will be used: 1) to assist HOME participants in managing their programs; 2) to track performance of participants in meeting fund commitment and expenditure deadlines; 3) to permit HUD to determine whether each participant meets the HOME statutory income targeting and affordability requirements; and 4) to permit HUD to determine compliance with other statutory and regulatory program requirements. This data collection is authorized under Title II of the Cranston-Gonzalez National Affordable Housing Act or related authorities. Access to Federal grant funds is contingent on the reporting of certain project-specific data elements. Records of information collected will be maintained by the recipients of the assistance. Information on activities and expenditures of grant funds is public information and is generally available for disclosure. Recipients are responsible for ensuring confidentiality when public disclosure is not required.

This form is intended to collect numeric data to be aggregated nationally as a complement to data collected through the Cash and Management Information (C/MI) System. Participants should enter the reporting period in the first block. The reporting period is October 1 to September 30. Instructions are included for each section if further explanation is needed.

## **Community Investment Task Force of Mt. Auburn Community Council, Inc.**

### Request for Information through Council members Cole & Thomas

We are thankful to Council members Cole and Thomas for sponsoring a Motion that initiated the OPEN Cincinnati SBE Task Force to evaluate inclusion programs that involve public spending. The Mt. Auburn Community Council, Inc. has initiated a Task Force to examine how community development projects are funded and what the City's past history has been for investment in neighborhoods and development projects. The information that we gather would also add value to the work that OPEN Cincinnati Task Force is doing as well, and we intend to share the findings of our research with them.

There are some specific data that we believe your office could help us to retrieve quickly which we have outlined below:

- List of all projects currently in the Community Development and Planning funding "pipeline" and a brief status report.
- List of projects approved for funding by DCDP in last NOFA
- Copies of the City's annual reports to HUD regarding CDBG and HOME spending since 2004.
- List of all capital improvement infrastructure and public improvement projects by neighborhood, by year since 2000.

Thank you so much.
